An Introduction to Music
Fundamentals of music theory, reading music, and ear training. No prior musical experience is required. This is an introductory study of the basic componenets of music, mainly melody, rhythm, texture, harmony, and form. We will apply these and other terms and concepts to examples from various music styles and genres including pop music, film music, jazz, Western European traditions of music, and music from cultures outside the US. The goal of this course is to enable you to apply musical concepts to your current musical experience, and to gain a more nuanced understanding and appreciation of music.
7/23-9/10 Tue/Thu 6 - 7:30 PM $179

Guitar/Bass Beginning
Establish good practice habits and basic music fundamentals. Focus will be on playing for fun and enjoyment while exploring note and chord reading, scales and ear training. Bring instrument to class.
