Science Degree Program

# Physical Therapist Assistant

**Purpose** To prepare the graduate to be qualified to practice as an associate degree licensed physical therapist assistant (LPTA), and to qualify for the licensure exam administered by the Physical Therapy Licensing Board for Oregon.

**Learning Outcomes** The competencies defined by the American Physical Therapy Association curriculum committee are based on a view of developing knowledge and skills needed to practice as a safe and effective entry-level PTA. The competencies also recognize that effective PTA practice requires a professional competencies, and patient care competencies. Professional competencies:

- exhibit a commitment that reflects the expectation of members of the profession and the health care services industries.
- define relationship capabilities that PTAs need to work with clients and colleagues, the knowledge and skills of practicing the discipline and competencies that encompass understanding of the broader health care system.

In all cases, the client is defined as the recipient of care, is considered active participant in care, and includes the individual, family or community. PTA competencies recognize that a competent PTA provides safe care across the lifespan directed toward the goals of helping clients (individuals, families or communities) promote health and recovery from acute or chronic neuromuscular, cardiovascular, pulmonary, orthopedic, metabolic, and sensory injury or disease.

The graduate will:

- demonstrate the knowledge and skills needed to practice as safe and effective entry-level Physical Therapist Assistants
- demonstrate respect for the uniqueness and value of each individual

- demonstrate ethical values that reflect this respect for others
- demonstrate a commitment to life-long learning and to the maintenance of excellence in the practice of physical therapy
- demonstrate a commitment to service.
- provide physical therapy services under the direction and supervision of a physical therapist
- demonstrate skills that will assist people of all ages who have medical problems, or other health-related conditions that limit their ability to move and perform functional activities in their daily lives.
- demonstrate and provide exercise for increasing strength, endurance, coordination and range of motion
- demonstrate the use of electrical stimulation to activate paralyzed muscles
- instruction in carrying out everyday activities in the use of helping devices
- demonstrate the appropriate application of massage, heat, cold, light, water or electricity to relieve pain or improve the condition of the muscle or skin.
- demonstrate detailed knowledge of human anatomy, physiology, and treatment procedure.

**Employment Trends** In the next ten years, annual new openings are projected to increase by 43 percent.

**Wages** Average Oregon statewide wages in 2006 ranged from \$20.38 hourly, \$39,108 annually to \$25.16 hourly, \$48,320 annually for fulltime PTA employment. These earnings do not account for overtime and shift differentials, which could increase earnings.

**Costs in Addition to Tuition** Please consult [lanecc.edu/hp/pta](http://lanecc.edu/hp/pta).

Physical Therapy Assistant students assume responsibility for their own uniforms, books, room and board, parking and transportation to and from clinical facilities.
