

Speech and Communication Studies

Important note Oregon four-year schools vary in their requirements. If you are a transfer student and considering a Transfer Plan in Speech and Communication Studies, you must work closely with a Lane academic advisor as well as an academic advisor at your transfer school.

Lane Community College's four core abilities emphasize how essential communication is to education and success in the workplace. To become a competent communicator, students usually need more than a one-course requirement in Speech and Communication Studies. In choosing this course of study students demonstrate to prospective and current employers their enhanced speech and communication skills.

By selecting one of the following tracks students can prepare themselves for careers in law, public relations, communication consulting, business administration, teaching, speechwriting, speech/debate direction, broadcast, counseling, mediation, labor relations, public opinion research, human resources, advertising, educational administration, lobbying, and marketing, to name a few fields.

This is a transfer plan, which is not the same as a state-approved vocational program with a vocational major leading to a degree from the Lane Board of Education. Rather the courses below are appropriate electives for students interested in optimizing their background in Speech and Communication Studies. This transfer plan is available in two tracks:

- 1 Academic track—for those pursuing a bachelor's degree or a minor in Speech and Communication Studies.
- 2 Occupational track—for those completing a two-year degree program who want to maximize their proficiency in speech and communication to enhance occupational readiness, performance, and flexibility.

Internship Students in either the academic or occupational track can elect to complete a one-term internship related to the field of Speech and Communication Studies. This work would be completed under the joint supervision of the Cooperative Education program at Lane and a Speech and Communication Studies faculty member. Letters of recommendation from the supervising employer and credits earned in practicum can give students a competitive edge when applying for employment. Internships may focus on public relations, advertising, political canvassing, environmental or health education, marketing, or other fields.

Important note Oregon four-year schools that provide a Communication major vary in their requirements. When selecting classes for the academic track, students must work closely with a Lane academic advisor as well as an academic advisor at the transfer school.

Completing an Academic Track in Communication Studies

The transfer plan recommends either the AAOT, ASOT, or OTM Foundational Requirement along with four Discipline studies courses in Speech and Communication Studies.

AAOT Foundational requirements

Communication/Rhetoric: Four credits - A fundamentals of speech or communication course. Choice of one course from:
