*See listings of **College Degrees and Majors used in STARS** on the last page of these instructions.*

Before You Apply (Continued)

Scoring Criteria - Your application will be scored in three areas:

- Essay Questions (1/3 of the total score)
- Transcripts (1/3 of the total score)
- Activity Chart (1/3 of the total score)

Essay Questions

(1/3 of the total score)

You will be required to answer four essays questions. You are encouraged to prepare these essays prior to logging into STARS. Then you can cut and paste them into the appropriate section of the application. If you try to write your essays in STARS, it is possible the system will time you out before you finish. This would mean your information will be lost.

Required Documents

Transcripts (1/3 of the total score)

Activity Chart (1/3 of the total score)

Transcripts and an Activity Chart are required for all applicants. Documents must be uploaded into the STARS online application in **.pdf format**. Other file formats will not be accepted. Please be sure **all** pages of your documents are uploaded and that they are not upside down.

Local copy centers can scan documents into a .pdf file. If the transcript or document is more than one page, request that it be scanned into one file. You will need to provide a USB flash drive or disk to save your document. Many home printers have a scanning feature. Be sure to save documents as a **.pdf file**.

User Name and Password

IMPORTANT: You will be required to create a User Name and Password when you log into the STARS online application for the first time. It is very important to write down your STARS User Name and Password and keep it in a safe place. You will use this information to log in and out of your application.

The "Forgot My Password" feature does not work with many email providers. If you have problems logging into your STARS online scholarship application, send an email to:

LCCScholarships@Lanecc.edu

Include your *Full Name* and *Application Problem* in the subject line of your email. Someone will try to get back to you as soon as possible. However, if you wait until the scholarship deadline, it is very unlikely you will get a response in time to complete your application.

Apply Early

It is always possible that network outages, heavy server traffic, or other challenges might occur for students who are trying to apply at the last minute. Apply early to be sure your application will be successfully completed!!

Notifying Scholarship Recipients

Scholarship recipients will be notified via email (using the email you listed in STARS). We do not send notifications to non-recipients. The Foundation office does not give out scholarship results over the phone.

Graduating High School Student

You must electronically upload your transcript which includes all coursework/grades available at the time you apply.

GED, or Home-Schooled Students

If you have completed a GED, or received a high school diploma through an alternative program, or have completed at least three GED tests, submit proof of this completion.

College Transcripts

You must electronically upload your most recent transcripts of all college coursework completed in the last 10 years. For students whose college coursework is older than 10 years, provide either a complete high school transcript with graduation date, or a complete college transcript.

Adult students with no college coursework, no high school diploma, GED, or home-schooling

Electronically upload any high school transcripts with the coursework you did complete.

Additional documents required for individual scholarships

A few scholarships specifically require additional letters of recommendation, or other information. (Example: the Gilma Greenhoot Scholarship requires two letters of recommendation). These documents must also be electronically uploaded in **.pdf format** with your application.

Suggestions for obtaining copies of your transcript/s.

High School Transcripts

- Contact your high school. If they no longer retain a copy of your transcript, ask them where your records are available.
- If this is unsuccessful, try contacting the School District Administration Office or the Department of Education in the state where you attended high school.
- If all else fails, try the Educational Service District (ESD) for the county where you attended high school. You may have to contact a different agency in other states.

GED transcripts

- You may be able to get your GED results from the school that did your GED testing.
- If you received your GED in Oregon, contact the Oregon Department of Education (gedoregon.org).
- If you received your GED in another state contact the Department of Education in that state. You might also try doing an internet search with “GED transcript and the name of the State where you obtained your GED.”

Home-School Records – Submit the transcript equivalent required by your home-school state.

College Transcripts

- Contact the college or school you attended. If your records are on hold for any reason, you will need to work with the institution to resolve this.
- If you attended a college that has closed, contact the Department of Education in that state. (You might also try doing an internet search - “State Name + department of education closed colleges”).

Students who have not attended school recently: If you have been out of school for a number of years and you are unsuccessful in obtaining copies of your transcripts, write a brief statement explaining your specific circumstances. Save your statement in **.pdf format** and upload it in the “Attach Documents” section of your online application.

How to Attach Documents to Your Application

Transcripts and an Activity Chart are required for all applicants. Documents must be uploaded into the STARS online application in **.pdf format. Other file formats will not be accepted.** Please be sure **all** pages of your documents are uploaded and that they are not upside down.

Local copy centers can scan documents into a .pdf file. If the transcript or document is more than one page, request that it be scanned into one file. You will need to provide a USB flash drive or disk to save your document. Many home printers have a scanning feature. Be sure to save documents as a.pdf file.

There are also online file converters that students may explore. Two examples of free programs include: CutePDF or PrimoPDF. Before students download any software from the web, they should carefully read any disclaimers, user manuals and be sure the software is compatible with their computer's operating-system.

Click "Upload" to open the screen to upload your documents. In the "Title" box that appears, please put your name followed by the type of document you are uploading. **Example:** "Barbara Jones.H.S. Transcript".

If you would like to make sure your documents have been successfully uploaded, you may highlight the document and click "Download" to view them. Please be sure all pages are included and documents have not been loaded upside down!
