

2026 LCC Nursing Program

Approved Healthcare Credentials for Work or Volunteer Experience

The following list shows current healthcare credentials that have been approved by the Nursing Department for the Fall 2026 RN Application season. The list below will only be used for Volunteer/Work Experience in a healthcare setting. We no longer give points for only having a certification. *You are required to upload the 2026 RN Nursing Healthcare Volunteer/Work Experience Form(s) to the Target-X site prior to the application deadline in order to receive points this year.

***Note:** This list gets updated once a year. If you believe you have experience in a position/profession that is not listed, please email [HPApplicationCenter](#) with RN 26 Application in the subject line and provide the name and description of the position/profession you are requesting to be approved.

Please visit the [Lane CC RN Application page](#) frequently to ensure you have the most up-to-date material and to find the required forms and supporting documentation for this year's application.

We **strongly** encourage you to meet with a Health Professions Advisor and attend a Preparing to Apply Workshop prior to completing your application. You will find advising schedules on the [Academic Advising website](#) and can [sign up for a Preparing to Apply Workshop here](#).
