Fall Term 2022 Enrollment Academic Requirements or established equivalent courses graded C or higher (**C- grades are not accepted** after spring term 2019):

1. **Writing course/Bachelor's degree:** Select one WR 115, WR 121, WR 122, WR 123 or WR 227 or submit an official transcript showing that a bachelor's degree has been awarded.
2. **Medical Terminology:** HP/HO 100
3. **Anatomy & Physiology:** HP 150 **OR** BI 231
4. **Psychology:** 100-level or higher
5. **Math 052**** (Math for Health and Physical Sciences) Fall 2020 or later **OR** Completion of Math 52 with a grade of C- or better from before Fall 2020 **AND** pass the LCC Math Placement Test for placement into Math 52, prior to the application deadline.

****Note:** Although you may have taken higher levels of math, Math 52 is still required to graduate from the program as it contains dosage comp information needed in first term MA classes.

Students who have completed MTH 52 prior to September 2020 may demonstrate competency by taking the math placement test prior to application. Passing the placement test will not give the student credit for MTH 52 or waive the necessity of taking MTH 52. It only allows them to use MTH 52 credits which are older than two years *instead of retaking the class*. If the student is unable to pass the applicable placement test parts, they should plan on retaking MTH 52 prior to fall entry. Instructions for taking the test:

- Go to <https://www.lanecc.edu/testing/placement-testing-information> and sign up to take the math placement test only.
- Go to <https://www.lanecc.edu/math/math-review-resources> for study tips and to print review sheets for math 10, 20 and math 52 (3 packets). Review concepts to prepare for your test. If you would like further assistance, you may consult with the [Math Resource Center](#).
- Take the test! Students may take the math placement test twice every 3 months.

Pre-Clinical Requirement to Enter Program (Paid by student)
