SECTION 300 SUPPLEMENTARY PROVISIONS – CONTRACTING RULES

These Community College Rules of Procurement were drafted by participating statewide community college representatives with the intent that Sections 100 and 200 be adopted in their entirety and remain unchanged by their respective institutions unless modified by participating committee members at a later date and subsequently ratified by all their local contract review boards. Section 300 has been specifically set aside to address the unique philosophies, cultures, and/or concerns of the various community colleges, voting districts, and local contract review boards. In the event of conflict between rules or sections within these Community College Rules of Procurement, the rules in Section 300, shall take precedence over the rules in Sections 100 in all cases; Sections 100, 200, and 300 shall take precedence over Appendix A.

CCR.301	Primary Thresholds

CCR.332	Procurement Related College Policies
CCR.333	Real Estate
CCR.335	Rejection of an Offer
CCR.337	Sole Sources Purchases
CCR.339	Space Rentals (hotels, conferences, temporary offices, etcetera)

APPENDIX A: TABLE OF CONTENTS OF -- OREGON ATTORNEY GENERAL'S MODEL PUBLIC CONTRACT RULES (OREGON ADMINISTRATIVE RULES).

Rules from the Oregon Attorney General's Model Public Contract Rules as expressly identified by rule number are incorporated herein by reference – Divisions 46, 47, 48 and 49 dated 2010 except those that have been identified but which are shown with a line drawn through them have been stricken and have not been adopted by the College.

SECTION 100 - GENERAL INFORMATION

Purpose and Statutory Authority

CCR.102

- (1) **Purpose.** These rules prescribe public contract Special Procurements (exemptions), whereby a Local Contract Review Board may approve a special procurement (pursuant to ORS 279B.085), personal services contracting rules, competitive procurement process rules, and supplementary provisions for community colleges, who have formally adopted through board resolution, these Community College Rules of Procurement, hereinafter referred to as Rules or CCRP.
- (2) **Statutory Authority.** These Rules are authorized by Public Contracting Code 279A.050 (*Procurement Authority*), 279A.055 (*Personal Services Contracts*), 279A.060 (*Local Contract Review Boards*), and 279A.070 (*Rules*). All references to PCC shall mean Public Contracting Code as defined in ORS 279A.010(1)(bb). (*Note: Under ORS 279A.065(4), public contracting agencies in Oregon will be operating under the State of Oregon Attorney General's Model Rules unless they have taken special action to opt out and adopt their own contracting rules.*)
- (3) These Community College Rules of Procurement (CCRP), were drafted through a statewide, collaborative effort by representatives of Participating Oregon Community Colleges (POCC). Pursuant to the POCC participatory agreement, Sections 100 and 200 of the CCRP shall remain unchanged unless modified by the POCC at a later date and subsequently ratified by each institution's Local Contract Review Board. Any member of the POCC that adopts changes to Sections 100 and/or 200 of the CCRP that have not been mutually agreed upon and adopted by all other POCC members, shall by and through its actions, no longer qualify as a member of the POCC cooperative procurement group and shall not represent itself as such.

Definitions for these Community College Rules of Procurement

CCR.104

The following terms, when they appear capitalized in these Community College Rules of Procurement, shall have the meaning set forth below unless otherwise indicated:

- (1) **"Addendum" or "Addenda"** means an addition to or deletion from, a material change in, or general interest explanation of a Solicitation Document.
- (2) **"Auxiliary Funds"** means funds intended to be profit making and/or self-sustaining for providing product or services to the College's customers. (See also "Enterprise Funds.") Examples of Auxiliary Fund or Enterprise Fund operations may include: bookstores; food services; printing services; medical/dental/science stores; student automotive and mechanical stores; and miscellaneous student stores for the resale of books and computers for instruction.
- (3) **"Award" or "Intent to Award"** means, as the context requires, either the act or occurrence of the College's identification of the Person with whom the College will enter into a Contract following the resolution of any protest of the College's selection of that Person, and the completion of all Contract negotiations.
- (4) **"Best Value, Arriving at"** means evaluation or assessment of performance factors and other aspects of service and product quality, as well as pricing, which may include, but not be limited to, combinations of quality, services, time, total cost of ownership considerations, and the probability of the Offeror performing the requirements stated in the Solicitation.
- (5) **"Bid"** means a Written response to an Invitation to Bid.
- (6) **"Bidding/Proposing Period"** means the span of time between the date of the Solicitation Document and the time and date set for receipt of Offers. The time period shall be stated in the Solicitation Document. Generally a period of fourteen (14) calendar days shall be provided, but in no case shall the time provided be less than five (5) calendar days.
- (7) **"Closing"** means the date and time specified in a Solicitation Document as the deadline for submitting Offers.
- (8) **"Code"** means the Public Contracting Code, as defined in ORS 279A.010.
- (9) **"College"** means Community College District or Community College Service District established under ORS chapter 341, hereinafter known as the specific College whose name appears on the Solicitation Document and/or subsequent Contract and whose Local Contract Review Board has adopted by resolution or ordinance these Community College Rules of Procurement.
- (10) **"Competitive Range"** means the Offerors with whom the College will conduct discussions or negotiations if the College intends to conduct discussions or negotiations in accordance with its own rules.
- (11) **"Contract"** means a "Public Contract," as defined in ORS 279A.010(1)(z), a sale or other disposal, or a purchase, lease, rental or other acquisition, by a contracting agency of personal property, services, including personal services, public improvements, public works, minor alterations, or ordinary repair or maintenance necessary to preserve a public improvement. "Public Contract" does not include grants. The "Contract" includes the College's Solicitation Document and the accepted portions of a Solicitation Document, whether attached or incorporated by reference, between the College and Contractor describing the work to be done and the obligations of the parties. Depending upon the goods and services being procured, the College may use "Contract" as meaning a purchase order, price agreement, or other contract document in addition to the College's Solicitation Document and the accepted portions

of a Solicitation Document. If the Contract is for a public improvement or public work, the "Contract" may consist of the College's Solicitation Document, including any addenda, the general and special and/or supplementary conditions or other conditions governing the work, the accepted portions of the Solicitation Document, the performance and payment bond (if required), certificates of insurance, plans, technical specifications, approved shop drawings, Construction Change Directive or written order for a minor change in the Work, Notice of Award, Notice to Proceed, and any contract amendments, including approved change orders.

- (12) "**Contract Price**" means, as the context requires, (i) the maximum monetary obligation that the College either will or may incur under a Contract, including bonuses, incentives, approved alternates, and contingency amounts, if the Contractor fully performs under the Contract.
- (13) "**Contract Review Authority**" means the College's Local Contract Review Board as set forth in ORS 279A.060.
- (14) "**Contract Value**" - in determining the applicability of dollar threshold requirements for competitive procurements within these Community College Rules of Procurement, "Contract Value" means the gross amount of goods and/or services procured by or for the College and shall take into consideration, but not be limited to, the following elements: (1) Contract Price; (2) total amount estimated to be generated, if contract is anticipated to be revenue generating; (3) economic value, and (4) total estimated expenses incurred for which the College would be required to report to the Internal Revenue Service (e.g., 1099).
- (15) "**Contractor**" means the Person with whom the College enters into a Contract and shall be synonymous with "Independent Contractor" (i.e., a person or business that provides services to the College in which the College neither controls nor has the right to control the means or manner by which work is performed). The College may control the results of the services, but not control the means or manner of the Contractor's performance of the Work.
- (16) "**Cost**" means not only the product price but also other items of expense such as the actual or reasonably estimated costs related to quality or conversion, and may include such actual or estimated items as shipping, delivery, setup, installation, and training.
- (17) "**Descriptive Literature**" means Written information submitted with the Offer that addresses the Goods and Services included in the Offer.
- (18) "**Disadvantaged Business Enterprise (DBE)**" means a small business concern pursuant to ORS 200.005(1), which is at least 51 percent owned by one or more socially and economically disadvantaged individuals, or, in the case of any corporation, at least 51 percent of the stock of which is owned by one or more socially and economically disadvantaged individuals and whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.
- (19) "**Effective Date of Contract**" means the date established in the Contract for the Contractor's work to begin, or the date the Contract has been fully executed and received all required approvals, whichever date is later.
- (20) "**Electronic Advertisement**" means notice of the College's request for Offers or Request for Quotes, available over the Internet via (a) The World Wide Web or some other Internet protocol; or (b) the College's electronic procurement system.
- (21) "**Electronic Offer**" means a response to the College's request for Offers or Request for Quotes submitted to the College via email or through the College's Electronic Procurement System.
- (22) "**Electronic Procurement System**" means an information system that Persons may access through the Internet, using the World Wide Web or some other Internet protocol, or that Persons may otherwise remotely access using a computer, that enables Persons to send Electronic Offers and the College to post Electronic Advertisements, receive Electronic Offers, and conduct other activities related to a procurement.
- (23) "**Emergency**" means circumstances that were not reasonably foreseen by the governing body of the College, its President or another officer authorized by the College, and create a substantial risk of loss, damage or interruption of services; a substantial threat to property, public health, welfare or safety of the environment that requires prompt execution of a Contract to remedy the condition or deal with the risk.
- (24) "**Enterprise Funds**" means funds intended to be profit making and/or self-sustaining for providing product or services to the College's customers. (See also "Auxiliary Funds.") Examples of Auxiliary Fund or Enterprise Fund operations may include: bookstores; food services; printing services; medical/dental/science stores; student automotive and mechanical stores; and miscellaneous student stores for the resale of books and computers for instruction.
- (25) "**Evidence of Competition**" means College documentation demonstrating competitive solicitation of responses/Offer from Person(s) in selecting a Contractor in accordance with the College's public contracting rules.
- (26) "**Facsimile**" means electronic equipment that communicates and reproduces both printed and handwritten material.
- (27) "**Gift**" means something of economic value given to a public official or a relative or member of the household of the public official without valuable consideration of equivalent value, including the full or partial forgiveness of indebtedness, which is not extended to others who are not public officials or the relatives or members of the

household of public officials on the same terms and conditions; or for valuable consideration less than that required from others who are not public officials.

- (28) **“Goods and Services”** or “Goods or Services” have the meaning set forth in ORS 279A.010(1)(j).
- (29) **“Interstate Agreement”** means any agreement between the College and a unit of local government or state agency of another state.
- (30) **“Invitation to Bid” (ITB)** means the Solicitation Document issued to invite Offers from prospective Contractors pursuant to either ORS 279B.055 or 279C.335.
- (31) **“Life Cycle Costing”** means the total cost of ownership; including the total cost of acquiring, operating, maintaining, supporting, and, if applicable, disposal.
- (32) **“Local Contract Review Board” (LCRB)** means the LCRB and/or Board of Education as established by Board resolution or ordinance by each respective College adopting these Community College Rules of Procurement, to serve as its public contract review authority.
- (33) **“Lowest Responsible Bidder”** as defined in ORS 279A.010(1)(r) means: (a) the lowest bidder whose Offer substantially complies with the requirements and criteria set forth in the Invitation to Bid and with all prescribed public procurement procedures and requirements; or (b) When the Invitation to Bid specifies or authorizes the award of multiple contracts to the responsible bidders, the bidders whose bids substantially comply with the requirements and criteria set forth in the Invitation to Bid and with all prescribed public procurement procedures and requirements and who qualify for the award of a public contract under the terms of the Invitation to Bid (279B.055(10)); and who has met the standards of responsibility set forth in ORS 279B.110(2) or 279C.375, has not been debarred or disqualified by the College under ORS 279B.130 or 279C.440, and is not on the list created by the Oregon Construction Contractors Board under ORS 701.227, if the advertised contract is a Public Improvement Contract.
Depending upon the requirements of the Solicitation Document, “Lowest Responsible Bidder” may also mean one who, in the determination of the Advocate for Minority, Women and Emerging Small Businesses, has undertaken both a policy and practice of actively pursuing participation by minority and women-owned business in all bids, both public and private, submitted by such bidder, pursuant to ORS 200.025 and 200.045 or a business enterprise that is owned or controlled by or that employs a disabled veteran, as defined in ORS 408.225.
- (34) **“Model Rules”** means the State of Oregon’s Attorney General’s model rules of procedure for Public Contracting, which are set forth in OAR Chapter 137, divisions 46, 47, 48, and 49 , and required under ORS 279A.065.
- (35) **“ORPIN” System:** The on-line electronic Oregon Procurement Information Network (ORPIN) administered through the State Procurement Office of the Procurement, Fleet and Surplus Services Division of the Oregon Department of Administrative Services.
- (36) **“ORS”** means Oregon Revised Statutes.
- (37) **“Offer”** means a Written offer to provide Goods or Services in response to a Solicitation Document.
- (38) **“Offeror”** means a Person, who submits an Offer.
- (39) **“Opening”** means the date, time and place specified in the Solicitation Document for the public opening of Offers.
- (40) **“PCC”** means Public Contracting Code as it is defined in ORS 279A.010(1)(bb).
- (41) **“Person”** means any of the following with legal capacity to enter into a Contract: individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, governmental agency, public corporation or any other legal or commercial entity.
- (42) **“Personal Property”** means everything subject to ownership, which is not real property and has exchangeable value; includes all chattels and movables, such as boats and vessels, merchandise and stock in trade, furniture and personal effects, goods, livestock, vehicles, farming implements, movable machinery, movable tools and movable equipment pursuant to ORS 307.020.
- (43) **“Personal Services Competitive Solicitation”** means a documented process providing an equal and open opportunity to qualified parties, which culminates in a selection based on criteria that include, but are not limited to, the Contractor’s availability, capacity, experience, reputation, responsiveness to time limitations, responsiveness to solicitation requirements, quality of previous performance and fees or costs.
- (44) **“Personal Services Contract”** or **“Contract for Personal Services”** means a Contract or member of a class of Contracts for Personal Services, other than a Contract for the services of an Architect, Engineer, Land Surveyor or Provider of Related Services as defined in ORS 279C.100 that the College’s Local Contract Review Board has designated as a Personal Services Contract pursuant to ORS 279A.055, whose primary purpose is to acquire specialized skills, knowledge and resources in the application of technical or scientific expertise, or the exercise of professional, artistic or management discretion or judgment, including, without limitation, a Contract for the services of a(n): accountant; physician, dentist or lawyer; educator; information technology professional, travel, banking, investing, collections, or other consultant; broadcaster or artist (including a photographer, filmmaker, painter, weaver, or sculptor). “Personal Services” is also defined in ORS 279C.100, and that definition applies only to ORS 279C.100 to 279C.125, for Architectural, Engineering, Land Surveying Services or Related Services. Contracts for Architectural, Engineering and Land Surveying Services, and Related Services are designated as a special class of Personal

Services Contracts, defined in ORS 279C.100(5). (See also Personal Services Contracting Rules section within these Community College Rules of Procurement for an expanded definition.)

- (45) **“Personal Services Contractor”** means an Independent Contractor that performs a Contract for Personal Service(s) for the College, when the College has no right to and does not control the means and manner of performing the contract, except as to the delivery schedule, determining compliance with the Statement of Work, and accepting or rejecting the deliverables or results required under the Contract.
- (46) **“Prequalification of Offeror”** means a process followed by the College, in advance of issuance of Solicitation Documents, to determine the qualifications of prospective Offerors to perform Public Contracts.
- (47) **“Product Sample”** means the exact Goods or a representative portion of the Goods offered in an Offer , or the Goods requested in the Solicitation Document as a sample.
- (48) **“Proposal”** means a Written response to a Request for Proposals.
- (49) **“Public Contract”** means a sale or other disposal, or a purchase, lease, rental or other acquisition, by the College of personal property, services, including personal services, public improvements, public works, minor alterations, or ordinary repair or maintenance necessary to preserve a public improvement. (ORS 279A.010(1)(z)).
- (50) **“Public Notice”** means a public notice of Solicitation Document that is published electronically or at least once in at least one newspaper of general circulation in the area where the Contract is to be performed, in at least one trade newspaper of statewide circulation if the Solicitation Document is for a public improvement and the contract has an estimated cost in excess of \$125,000 and in as many additional issues and publications as the College determines is likely to be cost effective.
- (51) **“Recycled Materials”** means recycled paper (as defined in ORS 279A.010(1)(gg)), recycled PETE products (as defined in ORS 279A.010(1)(hh)), and other recycled plastic resin products and recycled products (as defined in ORS 279A.010(1)(ii)).
- (52) **“Request for Proposals”** or **“RFP”** means all documents used for soliciting Proposals in accordance with either ORS 279B.060 or 279C.110, where proposal evaluation and contract award is based on criteria such as proposer qualifications and experience, product features and characteristics, service quality and efficiency, and conformance with the specifications and requirements of the Solicitation Document. Price may be evaluation criterion for an RFP, but will not necessarily be the predominant basis for contract award.
- (53) **“Request for Qualifications”** means a Written document issued by the College, to which Contractors respond in Writing by describing their experience with and qualifications for the Services, Personal Services or Architectural, Engineering or Land Surveying Services, or Related Services, described in the document.
- (54) **“Request for Quotations”** means a Written or oral request for prices, rates or other conditions under which a potential Contractor would provide Goods or perform Services, Personal Services or Public Improvements described in the request.
- (55) **“Requirements Contract”** means a price agreement that constitutes a firm Offer by the Contractor, regardless of whether any order or purchase has been made or any performance has been tendered under the price agreement and is enforceable for the period stated in the price agreement and is not revocable by the Contractor. A price agreement does not constitute an exclusive dealing commitment on the part of the College or the Contractor unless the price agreement expressly so provides. (ORS 279B.140)
- (56) **“Responsible”** means meeting the standards set forth in OAR 137-047-0640 or 137-049-0390(2), and not debarred or disqualified by the College under OAR 137-047-0575 or 137-049-0370.
- (57) **“Responsible Offeror”** (also, **“Responsible Bidder”** or **“Responsible Proposer,”** as applicable), means a Person that has submitted an Offer and meets the standards set forth in OAR 137-047-0640 or 137-049-0390(2), and that has not been debarred or disqualified by the College under OAR 137-047-0575 or 137-049-0370. When used alone, **“Responsible”** means meeting the aforementioned standards.
- (58) **“Responsive Offer”** means, as the context requires, a **Responsive Bid, Responsive Proposal,** or other -Offer that substantially complies in all material respects with applicable solicitation requirements. When used alone, **“Responsive”** means having the characteristic of substantially complying in all material respects with applicable solicitation requirements.
- (59) **“Service Contract”** means a Contract that calls primarily for a Contractor’s time and effort rather than for an end product.
- (60) **“Signature”** means any Written mark, word or symbol that is made or adopted by a Person with the intent to be bound and that is attached to or logically associated with a Written document to which the Person intends to be bound.
- (61) **“Signed”** means, as the context requires, that a Written document contains a Signature or that the act of making a Signature has occurred.

- (62) **“Solicitation”** means: (a) a request by the College for the purpose of soliciting Offers. This request may take the form of an Invitation to Bid, a Request for Proposal, a Request for Quotation, a Request for Qualifications or a similar document; or (b) the process of notifying prospective Offerors that the College requests such Offers; or the Solicitation Document itself.
- (63) **“Solicitation Document”** means an Invitation to Bid, Request for Proposals, Request for Quotations, or other similar document issued to invite Offers from prospective Contractors pursuant to ORS Chapter 279B or 279C. The following are not Solicitation Documents if they do not invite Offers from prospective Contractors: a Request for Qualifications, a prequalification of bidders, or a request for product prequalification.
- (64) **“Special Procurement”** means, unless the context requires otherwise, a Class Special Procurement, a Contract-Specific Special Procurement or both (ORS 279B.085). A “Class Special Procurement” means a contracting procedure that differs from the procedures described in ORS 279B.055, 279B.060, 279B.065 and 279B.070 and is for the purpose of entering into a series of contracts over time for the acquisition of a specified class of goods or services (ORS 279B.085(1)(a)). “Contract-Specific Special Procurement” means a contracting procedure that differs from the procedures described in ORS 279B.055, 279B.060, 279B.065 and 279B.070 and is for the purpose of entering into a single contract or a number of related contracts for the acquisition of specified goods or services on a one-time basis or for a single project (ORS 279B.085(1)(b)).
- (65) **“Specification”** means any description of the physical or functional characteristics, or of the nature of a supply, service or construction item, including any requirement for inspecting, testing or preparing a supply, service or construction item for delivery and the quantities or qualities of materials to be furnished under a Contract. Specifications generally will state the result to be obtained and may, on occasion, describe the method and manner of doing the Work to be performed. Specifications may be incorporated by reference and/or through attachment to the Contract.
- (66) **“Standard Fee Contract”** means a contract awarded for service to be performed for a standard fee, when the standard fee is established by the College, and a like Contract is available to all qualified applicants.
- (67) **“Statement of Work”** means a Written statement that specifically describes the phases of Work or services, major tasks, or areas of responsibility the Contractor is to perform at a particular site, or within a particular locale during a stated period of time, according to a schedule of delivery. The statement must identify specific objectives that the Contractor is to attain or describe, in detail, and the deliverables that the Contractor is to provide.
- (68) **“Telecommunications”** means 1-way and 2-way transmission of information over a distance by means of electromagnetic systems, electro-optical systems, or both.
- (69) **“Work”** means the furnishing of all materials, equipment, labor and incidentals necessary to successfully complete any individual item in a Contract or the entire Contract, and successful completion of all duties and obligations imposed by the Contract.
- (70) **“Writing”** means letters, characters and symbols inscribed on paper by hand, print, type or other method of impression, intended to represent or convey particular ideas or meanings. “Writing,” when required or permitted by law, or required or permitted in a Solicitation Document, also means letters, characters and symbols made in electronic form and intended to represent or convey particular ideas or meanings.
- (71) **“Written”** means existing in Writing.

SECTION 200 - PUBLIC CONTRACT SPECIAL PROCUREMENTS

General Contract Special Procurements

Advertisement Contracts

CCR.202

The College may purchase advertising, which does not include contracting with advertising agencies, regardless of dollar amount, without competitive bidding. Where it is determined to be cost effective, the College may publish its public notices electronically, via the college's or other public entity's electronic procurement system or world wide web site instead of, or in addition to, a newspaper of general circulation.

Findings of Fact

1. By their nature, media sources are generally unique. Advertisements are placed in a particular source because of the specific audience that source serves.
2. Competition to furnish advertising space in daily newspapers of general, trade, or business circulation in the vicinity of the College is limited.
3. Cost savings are difficult to quantify where the sources are unique and not interchangeable. Where the volume of purchases warrants, the College may enter into advertising contracts in accordance with ORS 279B.065 and ORS 279B.070 whenever possible to maximize savings achieved through economies of scale.
4. Public notices may be advertised electronically and/or in a newspaper of general circulation in an effort to increase exposure and generate more widespread competition. Cost savings for increased competition are difficult to quantify, but the cost to the College for advertising may be significantly reduced where electronic advertising methods are utilized.

Conclusion of Compliance with Law

It is unlikely that this Special Procurement will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B.085(3)(b)(B)), by expediting its procurement processes while maximizing its circulation efforts and notice of bidding opportunities without compromising integrity for cost.

This rule satisfies the requirements of Oregon Revised Statute 279B.055(4)(c), wherein a local contract review board may, by rule or order, authorize public notice of bids or proposals to be published electronically instead of in a newspaper of general circulation if it is likely to be cost-effective.

* * * * *

Bid Security and Bond Requirements, Waiver of

CCR.204

Pursuant to ORS 279C.390, the College may, at its discretion, exempt certain contracts or classes of contracts from all or a portion of the requirement for bid security and from all or a portion of the requirement that good and sufficient bonds be furnished to ensure performance of the contract and payment of obligations incurred in the performance.

The College may waive bid security requirements and/or performance/payment bond requirements pursuant to ORS 279C.390 and this rule under the following conditions:

- (1) If the contract is for a public improvement or a public work and the amount of the contract does not exceed \$75,000 or another threshold as indicated by rule amendment in Section 300, and the contractor has filed a public works bond with the State of Oregon Construction Contractors Board ;
- (2) If the contract is not for a public improvement; or if the contract is for a public improvement that resulted from an alternative contracting method and the contract is only for pre-construction services;
- (3) Where bidders are drawn exclusively from a list of certified Emerging Small Businesses maintained by the Advocate for Minority, Women and Emerging Small Business enterprise certified under ORS 200.055, or a business enterprise that is owned or controlled by or that employs a disabled veteran, as defined in ORS 408.225, and the College has been provided funds by the legislature for the purpose of assisting Emerging Small Businesses;
- (4) In cases of emergency, or when the interest or property of the College or the public agency or agencies for whose benefit the contract was awarded probably would suffer material injury by delay or other cause and a declaration of such emergency has been made in accordance with rules adopted under ORS 279A.065.

The College shall not use Bid or Proposal security to discourage competition. The Offeror shall forfeit Bid or Proposal security after award of the contract if the Offeror fails to execute the contract and promptly return it with any required Performance Bond and Payment Bond.

Conclusion of Compliance with Law

It is unlikely that this Special Procurement will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete, it is reasonably expected to result in substantial cost savings to the College or to the public (ORS 279B.085(4)(b)(A)), and it will enable the College to otherwise substantially promote the public interest (ORS 279B.085(4)(b)(B)), by reducing costs of bidding and maximizing participation from Emerging Small Businesses.

This rule satisfies the requirements of ORS 279C.390 wherein a local contract review board may exempt certain contracts or classes of contracts from all or a portion of the requirement for bid security and from all or a portion of the requirement that good and sufficient bonds be furnished to ensure performance of the contract and payment of obligations incurred in the performance. Consequently, findings otherwise required by law are unnecessary here.

* * * * *

Emergency Contracts (Including Oil or Hazardous Material Removal)

CCR.206

- (1) Pursuant to the requirements of this rule, the College may, at its discretion, enter into a public contract without competitive solicitation if an emergency exists. Emergency means circumstances that could not have been reasonably foreseen which create a substantial risk of loss, damage, interruption of services or threat to public health, welfare, or safety, and require prompt execution of a contract to remedy the condition (ORS 279A.010(1)(f)).
- (2) Regardless of the dollar value of the contract, when entering into an emergency contract the College shall:
 - (a) Make a written declaration of emergency, including findings describing the emergency circumstances that require the prompt performance of the contract, stating the anticipated harm from failure to establish the contract on an expedited basis; and
 - (b) Encourage competition to the extent reasonable under the circumstances; and
 - (c) Record the measures taken under subsection (b) of this section to encourage competition, the amounts of the bids, quotes or proposals obtained, and the reason for selecting the contractor.
- (3) Pursuant to ORS 279B.080, if an emergency exists as defined in subsection (1) of this rule, the Board of Education, its President, or another officer authorized by the College shall declare the existence of the emergency as required by subsection (2) of this rule, which shall authorize the College to enter into an emergency contract.
- (4) The written declaration of an Emergency and resulting contract are solely entered into at the discretion of the College's President or authorized officer.
- (5) If the total award exceeds the threshold for formal public bidding, the Board shall be notified at its next available public meeting and provided with an opportunity to discuss the emergency, the award, and ratification thereof.
- (6) Oil or Hazardous Material Removal: The College may enter into public contracts without competitive bidding, regardless of dollar amount, when ordered to clean up oil or hazardous waste pursuant to the authority granted the Department of Environmental Quality (DEQ), under ORS 466.605 through 466.680 and such DEQ order necessitates the prompt establishment and performance of the contract in order to comply with the statutes regarding spill or release of oil or hazardous material that has created an emergency condition. In exercising its authority under this exemption, the College shall:
 - (a) (1) To the extent reasonable under the circumstances, encourage competition by attempting to make informal solicitations or to obtain informal quotes from potential suppliers of goods or services;
 - (1) Make written findings describing the circumstances requiring clean up or a copy of the DEQ order ordering such cleanup;
 - (2) Record the measures taken under subsection (a) of this section to encourage competition, the amount of the quotes or proposals obtained, if any, and the reason for selecting the contractor selected.
 - (b) The College shall not contract pursuant to this exemption in the absence of an order from the Department of Environmental Quality to clean up a site with a time limitation that would not permit hiring a contractor under the usual competitive bidding procedures.

Findings of Fact

1. Under ORS 279B.080, public contracts may be exempted from the requirements of ORS 279B.050 if emergency conditions exist, which require prompt execution of the contract, subject to the additional requirements of ORS 279B.080.

2. ORS 279B.080 allows the local contract review board to adopt rules to allow the head of the contracting agency or a designated person to declare that an emergency exists and to establish procedures for determining when emergency conditions are present. Subsections (2)(a), (2)(b), and (2)(c) of this rule accomplish this.
3. When DEQ orders a public agency to remove or clean up hazardous material or oil, the public agency must respond within a very short time, which is stated in the DEQ order. This time period does not generally allow the agency to take the time necessary to solicit written bids or proposals for the work to be performed. The College would be liable for any delay in responding to DEQ orders to perform hazardous material removal or clean up.
4. This exemption, as it pertains to subsection (7), will not be used in those situations where there is no DEQ order to remedy the situation. Routine competitive procurement methods will be used where there is no DEQ order to act immediately. The college maintains open lists of vendors, who are interested in providing hazardous materials removal and clean up services. Whenever it needs hazardous material removal or disposal, the College makes use of these lists to solicit quotes, bids, or proposals as needed, in addition to advertising the procurement as required.
5. Cost savings are achieved through this exemption, because the college can be liable for DEQ penalties and fines, if it does not timely remove hazardous materials or oil as ordered. Serious risk in these situations could result in property damage or personal injury, if the College is slow to act.

Conclusion of Compliance with Law

Procurements made by the College in compliance with this exemption meet the requirements of emergency public contracts pursuant to: ORS 279B.050; 279B.080, and 279C.335.

It is unlikely that this exemption will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts as required by ORS 279C.335(2)(a). If the College is under DEQ order to act immediately, the College will still attempt to obtain competitive quotes for the work to be performed as it has the ability and time to do so. Unless the College is faced with the quasi-emergency situation of a DEQ order to remove or clean up hazardous waste or oil, it will follow normal competitive procedures to obtain these services.

The award of public contracts pursuant to this exemption will result in a cost savings to the College in these situations, as required by ORS 279C.335(2)(b), because the College must comply with the law and avoid and minimize risk to persons and property. Where possible, the College will seek competitive quotes for the work to be performed and will award the contract to the lowest, responsive and responsible proposer.

* * * * *

Equipment Repair & Overhaul (Including Maintenance Agreements)

CCR.208

- (1) The College may enter into a public contract for equipment repair, maintenance agreements, or overhaul of equipment without competitive bidding, subject to the following conditions:
 - (a) Service and/or parts required are unknown, and the cost cannot be determined without extensive preliminary dismantling or testing; and/or
 - (b) Service and/or parts required are for sophisticated equipment for which specially trained personnel are required and such personnel are available from only one source;
 - (c) Maintenance agreements must be procured from the provider of the equipment and/or software being maintained in order to be valid, preserve warranties, provide the best possible service, or conform to other similar agreements being provided by the same provider for maximizing economy and/or servicing functions;
 - (d) The College shall conduct its procurement for equipment repair, maintenance agreements, or overhaul of equipment pursuant to methods and parameters established in (2) of this rule.
- (2) The following limitations shall apply:
 - (a) At the discretion of the College, if it is practical to competitively procure equipment repair, maintenance agreements, or overhaul of equipment using quotations or other forms of Solicitation Documents then these competitive processes shall be utilized. If not, the file should be documented with the reasons for invoking this exemption from competitive procurement, specifically supporting the impracticality of a competitive procurement.
 - (b) If the contract exceeds or is anticipated to exceed the thresholds for Small or Intermediate Procurements as these thresholds are defined in CCR.301, the College shall document in its procurement file the reasons why a competitive procurement process was deemed impractical, and the College may directly enter into the contract.

Findings of Fact

The need for equipment repair or overhaul of equipment cannot always be anticipated by College staff. If a piece of equipment is broken or not working properly, the College incurs the cost of down time, possible replacement equipment rental fees, staff time, and other inconveniences or liabilities to its programs.

1. Generally, there are a limited number of vendors, who are able to perform repair or overhaul on a particular piece of equipment, because of its make or manufacture. Sophisticated equipment may require specially trained personnel available from only one source. Often, a piece of equipment will have a partial warranty in place, which will guarantee some savings to the College in the parts and/or labor needed to do the repair or overhaul. This warranty savings may only be achieved if the original manufacturer or provider of the equipment performs the necessary repair or overhaul.
2. The dollar limits on the use of this Special Procurement ensure that when the cost of the equipment repair or overhaul is expected to exceed threshold amounts for Small and Intermediate Procurements as these are defined in CCR.301, the College will competitively procure, or if that is not practical or cost effective, declare an emergency or obtain a specific exemption from the president of the College or the president's designee, with notification to the LCRB to proceed with the purchase of the needed repair or overhaul.

Conclusion of Compliance with Law

It is unlikely that this Special Procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition and is reasonably expected to result in substantial cost savings to the College for such contracts as required by ORS 279B.085(4), because the dollar amount of the exempted purchase (i.e., Special Procurement), may not exceed the thresholds established in CCR.301 for Intermediate Procurements without additional notification and/or approval from the LCRB and/or the College president or the president's designee. Where it is practical, the College will competitively procure equipment repair, maintenance agreements, and overhaul of equipment; where it is impractical, written justification, provided by the department, will become part of the public record of the contract.

The awarding of public contracts pursuant to this exemption is reasonably expected to result in a cost savings to the College, as required by ORS 279B.085((3)(b)(A), because the College incurs direct and indirect costs from the moment equipment breaks down or becomes unusable. This Special Procurement only applies to equipment already owned by the College. Time is of the essence in contracts for equipment repair, maintenance agreements, and equipment overhaul. The College must be able to purchase necessary services and parts as quickly as possible in order to minimize equipment down time and provide uninterrupted levels of service to support the College's educational initiatives.

* * * * *

Intellectual Property (Periodicals, Library Books, Proprietary Software Licenses, Art, and Other Products of the Creative Process) CCR.212

If the contract is for the purchase of Intellectual Property, which shall include, but not be limited to, Periodicals, Library Books, Subscription Services, Proprietary Software Licenses, Art, and Other Products of the Creative Process, the College may contract for the purchase of the product(s) without competitive procurement, regardless of dollar amount when the product(s) are protected under copyright law, and/or there is only one known supplier (e.g., manufacturer, copyright holder), available for such products.

Examples of copyrighted materials typically covered by this Special Procurement include, but are not limited to: magazines and other periodicals; textbooks; workbooks; curriculum kits; reference materials; audio tapes; video tapes; calculators such as those used for aircraft navigation; and most software and products of the visual, aural and written arts. It should be noted that if there is more than one supplier of copyrighted materials (especially software), and the product(s) are not being purchased directly from the writer, manufacturer or other original source, every attempt should be made to establish a competitive selection process in order to achieve the greatest economy.

Findings of Fact

1. By design, Intellectual Property is protected for the use of a single owner. Copyrighted products may not be duplicated by others without the express permission or license of the copyright holder.
2. Instructional initiatives define the various materials, which the college will purchase for use in its educational programs, and it is not uncommon for Intellectual Property to be produced by only one supplier (i.e., sole source), who may be the copyright holder or licensee.

Conclusion of Compliance with Law

This rule will not encourage favoritism or substantially diminish competition in the awarding of public contracts. The production and distribution of Intellectual Property is controlled by the copyright holder/owner, and may only be permitted through a sole source. This rule provides additional parameters for consideration that are complementary to the Public Contracting Code where competition does exist. It is not intended to diminish the College's ability to consider other factors or limit fair and open competition when arriving at best value. It is the policy of the State of Oregon that public contracting activities should provide effective outcomes that represent optimal value to the contracting agency, and to the greatest extent feasible, be consistent with market practices (ORS 279B.010(1)).

Additionally, pursuant to ORS 279A.025(2)(h), the Public Contracting Code does not apply to contracts for the procurement or distribution of textbooks; consequently, findings otherwise required by law are unnecessary when the procurement or distribution of Intellectual Property is specifically for textbooks—a subcategory of Intellectual Property.

* * * * *

Intergovernmental Cooperative Purchasing Participation **CCR.214**

Examples of intergovernmental cooperative purchasing participation may include, but not be limited to: Oregon Cooperative Purchasing Program (ORCPP), Western States Contracting Alliance (WSCA), Association of Educational Purchasing Agencies (AEPA), Oregon Educational Technology Consortium (OETC), and US Communities & Government Purchasing Alliance.

Pursuant to Oregon Revised Statutes 279A.205, 279A.210, 279A.215, and 279A.220, other governmental agencies, bodies, or districts may participate in any joint cooperative procurement and/or subsequent contract award resulting from any solicitation which has been accomplished in compliance with Oregon Revised Statutes, as if said agencies had generated the solicitation and made the award on their own behalf.

Comment

In general, the results of any solicitation, formal or informal, which has taken place under the requirements of Oregon Revised Statutes and has resulted in an award, and is current (i.e., not closed, terminated, in abeyance or in default), may be utilized by the College pursuant to Oregon Revised Statutes 279A.205, 279A.210, 279A.215, and 279A.220.

Conclusion of Compliance with Law

Intergovernmental Cooperative Purchasing Participation is not an exemption from the competitive procurement requirements of law; therefore, the College has determined that findings of fact are not required. The awarding of contracts pursuant to this process will “provide effective outcomes that represent optimal value to the College and, to the greatest extent feasible, be consistent with market practices” (ORS 279B.010(1)). Consequently, findings otherwise required by law are unnecessary here.

* * * * *

Life Cycle Costing/Best Value **CCR.216**

- (1) In determining the lowest bid or best proposal, in the award of a contract, the College may use the concept of life cycle costing if it complies with section (2) of this rule:
- (2) (a) At the time of writing specifications for the product, the College shall identify those factors which will have cost implications over the life of the product, and which, for evaluation purposes, will be used to adjust the bid or proposal price of the product;
- (b) The solicitation document shall set out clearly the factors and methodology to be used in life cycle cost adjustments; and
- (c) The results of life cycle costing adjustments shall be applied to the bid or proposal price of the product(s) offered, and the bid or proposal that results in the lowest overall ownership cost or “best value” as it is determined by ORS 279A.015(5), taking into account the life cycle costing adjustments, and other aspects of service and product quality, as well as pricing.

Conclusion of Compliance with Law

This rule provides additional parameters for consideration that are complementary to the Public Contracting Code while supporting impartial and open competition. It is not intended to diminish the College's ability to consider other factors when arriving at best value. As such, it is not an exemption or Special Procurement to the competitive bidding requirements of law. It is the policy of the State of Oregon that public contracting activities should provide effective

outcomes that represent optimal value to the contracting agency, and to the greatest extent feasible, be consistent with market practices (ORS 279B.010(1)). Consequently, findings otherwise required by law are unnecessary here.

* * * * *

Perishables (Chemicals, Food, Laboratory Supplies)

CCR.218

Competitive procurement need not be used for the procurement of perishables under this Special Procurement provided that the perishability and commensurate quality is of greater importance than the cost to the College.

Comment

If longevity is not an issue and multiple sources exist, standard procurement practices shall be utilized.

Findings of Fact

This rule permits such items as foodstuffs and scientific supplies, which have definitive shelf lives, and associated attributes such as quality and longevity, to be purchased without strict competitive processes based upon price. Shelf life and the associated attributes may be the determining factors.

The rule enables the buyer to decide on a source based upon time since manufactured, remaining shelf life, and interim quality, since various states of decay can affect the product.

Conclusion of Compliance with Law

It is unlikely that this Special Procurement will result in favoritism in the awarding of public contracts or substantially diminish competition, since all vendors, including Oregon businesses, are able to compete, it is reasonably expected to result in substantial cost savings to the College (ORS 279B.085(4)(b)(A)), and it will enable the College to otherwise substantially promote the public interest (ORS 279B.085(4)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Personal Property, Used (Purchase of)

CCR.220

Competitive procurement need not be used for the procurement of Used Personal Property if the College has determined that the purchase will result in cost savings and will not diminish competition or encourage favoritism.

For purchases of used personal property or equipment costing \$25,000 or more, or an amount otherwise indicated in CCR.301, the College shall, where feasible, obtain three competitive quotations, unless such comparisons are highly impractical to obtain. Procurement files pertaining to Used Personal Property shall contain documentation of price comparisons and attempts to secure competitive pricing as much as is practical.

When the value of any such purchase exceeds the threshold for Intermediate Procurements as that threshold is defined in CCR.301, Primary Thresholds (see Supplementary Provisions of the Community College Rules of Procurement), such purchases shall be authorized and/or delegated only by the College President, who shall notify the LCRB of such purchases at the next regularly scheduled meeting of the LCRB.

Comment

Used Personal Property is property which has been placed in use by a previous owner or user for a period of time recognized in the relevant trade or industry as qualifying the personal property or equipment as “used,” at the time of purchase.

Used Personal Property generally does not include property or equipment of which the College was the previous or current user, whether under a lease, as part of a demonstration, trial or pilot project, or similar arrangement.

Findings of Fact

The additional liberty for purchasing used personal property is essential for those who participate in auctions or other spot sales, where it is impractical to utilize conservative procedures because of the necessities of the selling process.

Conclusion of Compliance with Law

This rule provides additional parameters for consideration that are complementary to the Public Contracting Code while supporting impartial and open competition as much as is practical. It is the policy of the State of Oregon that public contracting activities should provide effective outcomes that represent optimal value to the contracting agency, and to the greatest extent feasible, be consistent with market practices (ORS 279B.010(1)). Pursuant to ORS 279B.075(1) Used Personal Property may be considered a sole-source procurement, if it is available from only one source; written findings supporting this determination and conclusion shall be made by the College. Findings otherwise required by law to support this Special Procurement are unnecessary here.

* * * * *

Price Regulated Items (Including Gas, Diesel Fuel, Heating Oil, Lubricants, Asphalts, Distilled Alcohol, Postage, and Certain Utilities

CCR.222

The College may, without competitive bidding, contract for the direct purchase of goods or services where the rate or price for the goods or services being purchased is established by federal, state, or local regulatory authority (ORS 279A.025(2)(g) and ORS 279A.025(2)(j)).

Comment

If competition exists and it is practical to solicit quotations, bids, or proposals for Price Regulated Items, then these procurement methods should be utilized in an effort to obtain best value.

Conclusion of Compliance with Law

Competition is not generally a relevant issue in the procurement of goods or services where the provider's rate or price of the goods or services being purchased is established by federal, state, or local regulatory authority, and the goods or services are provided through a sole source. Examples include: Postage, Sewer/Water Service, Garbage Service, Electricity, Etcetera. Since there is virtually no competition available within these price regulated items, it is unlikely that this exemption will encourage favoritism in the awarding of public contracts or substantially diminish competition for public contracts. Consequently, findings otherwise required by law are unnecessary here.

* * * * *

Request for Proposals

CCR.224

The College may, at its discretion, use Request for Proposal competitive procurement methods subject to the following conditions:

- (1) The procurement is advertised and a written solicitation document is issued that invites the submission of sealed, written offers to be opened publicly at a designated time and place; and
- (2) Contractual requirements are stated clearly in the solicitation document; and
- (3) Evaluation criteria to be applied in awarding the contract and the role of an evaluation committee are stated clearly in the solicitation document. Criteria used to identify the proposal that best meets the College needs may include but are not limited to cost, quality, service, compatibility, product reliability, operating efficiency and expansion potential, and proposer's qualifications and experience; and
- (4) The solicitation document clearly states all complaint processes and remedies available; and
- (5) The solicitation document states the provisions for proposers to comment on any specifications that they feel limit competition.

Conclusion of Compliance with Law

As the RFP process is an alternate method of competitive source selection and not an exemption from the competitive procurement requirements of law, the College has determined that findings of fact are not required. It is unlikely that this process will encourage favoritism in the awarding of public contracts or substantially diminish competition, and it is reasonably expected to result in substantial cost savings to the College or to the public (ORS 279B.085(4)(b)(A)). The awarding of contracts pursuant to this process will result in best value to the College based on selection by the College of the most responsive proposal that meets the stated evaluative criteria. Consequently, findings otherwise required by law are unnecessary here.

* * * * *

Requirements Contracts and Price Agreements

CCR.226

- (1) Requirements contracts, for the purposes of this Rule, mean price agreements, services agreements, and sales that may be established for the purposes of minimizing paper work, achieving continuity of product, securing a source of

supply, reducing inventory, combining college requirements for volume discounts, standardization among agencies, and reducing lead time for ordering. The College may enter into requirements contracts whereby it is agreed to purchase supplies and/or services for an anticipated need at a predetermined price provided the contract is let by a competitive procurement process pursuant to the requirements of ORS 279ABC and these Rules. or is a contract for the procurement of products or services from a qualified nonprofit agency for individuals with disabilities pursuant to ORS 279.850.

- (2) The College may purchase the supplies and/or services from a contractor awarded a requirements contract without first undertaking additional competitive solicitation.
- (3) The term of the contract including renewals, must not exceed the maximum term stated in the original solicitation.

Conclusion of Compliance with Law

This rule provides additional parameters for consideration that are complementary to the Public Contracting Code while supporting impartial and open competition as much as is practical. It is the policy of the State of Oregon that public contracting activities should provide effective outcomes that represent optimal value to the contracting agency, and to the greatest extent feasible, be consistent with market practices (ORS 279B.010(1)). Pursuant to ORS 279A.065(5)(a) and ORS 279A.070, a contracting agency may, in the exercise of authority granted under ORS 279A.050, adopt rules necessary to carry out the provisions of the Public Contracting Code; consequently, findings otherwise required by law are unnecessary when the College has determined it is in its best interests to purchase supplies and/or services utilizing a competitively procured requirements contract or price agreement.

* * * * *

Resale – Items for

CCR.228

Competitive procurement processes need not be used for the procurement of product or services being purchased strictly for resale. This Special Procurement applies to products or services that are specifically for resale as opposed to internal use or consumption.

Findings of Fact

- (1) College Enterprise, Auxiliary Fund, and/or General Fund operations that compete in the open market need to be able to purchase products or services for resale without undue restrictions.
- (2) In order to compete in the open market, these operations must be knowledgeable, proactive, and stay abreast of current trends, consumer wants, tastes and desires, and be able to meet those needs in their offerings. Additionally, fund operators must be free to purchase products or services for resale that the consumers want even if it means having a limiting factor such as brand, functionality, price, or quality.
- (3) These operations must work as efficiently as possible to hold down their own costs as well as to present the goods or services to the public at a fair market price. Thus, they will be looking for the goods for resale at the most competitive prices and highest quality within their parameters.
- (4) In awarding contracts, these operations must ensure the appropriate amount of the product or service will be in stock or be readily available, received, or provided at the appropriate time. Ensuring that the products or services are available and of the proper freshness and quality may prevent the operation from conducting timely competitive buying.

Conclusion of Compliance with Law

It is unlikely that this exemption will encourage favoritism in the awarding of public contracts or substantially diminish competition, and it is reasonably expected to result in substantial cost savings to the College or to the public (ORS 279B.085(4)). Additionally, this Special Procurement will substantially promote the public interest as required by ORS 279B.085(3)(b)(B), in a manner that could not practically be realized under the requirements of ORS 279B.050, 279B.055, 279B.060, 279B.065, 279B.070 (Methods of Source Selection).

Telecommunications Services

CCR.230

- (1) This rule is intended to allow the College to secure the most competitive, cost-effective telecommunications services of the quality needed to meet all service, performance requirements while minimizing administrative and service delivery costs.
- (2) In determining the appropriate procurement method for telecommunications services, the College must determine whether competition exists. The College may consider the following factors:

(a) The extent to which alternative providers exist in the relevant geographic and service market. The relevant market will vary with the geographic area and from service category to service category, depending on changes in the regulatory environment and competitive marketplace. Thus, the relevant market will depend on the facts and circumstances of each case. For example, an alternative local access service or private line provider might offer services in Portland, but not in Salem or the rest of the state; (b) The extent to which alternative services offered are comparable or substitutable in technology, service provided, and performance. (For example, if the College requires digital services, analog services are not comparable or substitutable, or if the College requires fiber optic technology, then copper, microwave, or satellite transmission technology may not be comparable or substitutable); (c) The extent to which alternative providers can respond to the College's interests in consistency and continuity of services throughout its service area, volume discounts, equitable service for all users, centralized management, and limiting College liability. For example, to be considered as the College's telephone long distance provider, any long distance service vendor must be able to meet, support, and interface with the College's centralized automated billing requirements. The College must document for the record the findings on these factors or any other factors used in determining whether competition exists. In developing its findings, the College may solicit the information either through informal telephone or written contacts or through a formal request for information.

- (1) Upon determining that competition does not exist for the relevant service and geographical area, the College may proceed to secure the service on a sole source basis, as described in these Rules.

Findings of Fact

1. In some cases, the use of competitive procurement processes is either not practicable, advantageous, or in the College's best interest due to unforeseen circumstances, unreasonable costs, difficulty in locating vendors even after extensive searches, or where time constraints occur that are due to circumstances beyond reasonable control.
2. All practical measures will be taken to encourage competition when possible.
3. The chief fiscal officer or designee will report to the Local Contract Review Board the reason(s) that competitive procurement processes were deemed to be impracticable and what steps, where possible, were taken to encourage competition if the acquisition meets or exceeds \$100,000. A copy of the waiver shall be placed on file in the Purchasing office or other designated official location.

Conclusion of Compliance with Law

It is unlikely that this exemption from competitive procurement processes will encourage favoritism in the awarding of public contracts or substantially diminish competition, and it is reasonably expected to result in substantial cost savings to the College or to the public (ORS 279B.085(4), since it would be an Exception, and would be due to extenuating circumstances. Additionally, this Special Procurement will substantially promote the public interest in a manner that could not practicably be realized by complying with requirements that are applicable under ORS 279B.055, 279B.060, 279B.065, or 279B.070 or under any rules adopted thereunder. (Stat. Auth: ORS 279B.075 and 279B.085, Sole-Source Procurements and Special Procurements, respectively.)

* * * * *

PERSONAL SERVICE CONTRACTING RULES

Personal Services Contracts

CCR.250

I. Definition - General

- (1) A Contract for "Personal Services" is a Public Contract that calls for specialized skills, knowledge, and resources in the application of highly technical or scientific expertise, or the exercise of professional, artistic or management discretion or judgment. Qualifications and performance history, expertise, knowledge and creativity, and the ability to exercise sound professional judgment are typically the primary considerations when selecting a Personal Services Contractor, with price being secondary.
- (a) Contracts for Architectural, Engineering and Land Surveying Services and Related Services are designated as a special class of Personal Services Contracts, defined in ORS 279C.100 (5), and that definition applies only to ORS 279C.100 to 279C.125. Contracts for Architectural, Engineering and Land Surveying Services and Related Services are not subject to the provisions of rule CCR.250 of the Community College Rules of Procurement, but are, instead, subject to the provisions of Division 48 of the *Oregon Attorney General's Model Public Contract Rules* as adopted by the College, and the Community College Rules of Procurement adopted by the College, excluding rule CCR.250.
- (2) The College may waive the requirement for a competitive selection process and directly negotiate a Personal Services Contract, if the contract price is not more than the Minimum Threshold as this threshold is defined in CCR.301-Primary Thresholds. Regardless of the dollar value of the contract, the College may, at its discretion, enter into a Personal Services Contract without complying with formal or informal solicitation requirements if an Emergency, as defined in CCR.206 exists.
 - (a) Unless there are compelling reasons not to do so, competitive selection processes for Personal Services contractors should take place at intervals not greater than five years after initial completion and acceptance of services.
 - (b) The screening and selection procedures for the award of Personal Services Contracts are governed by ORS 279A.055 and are subject to the competitive procurement provisions of the Personal Services Contracting rules and procedures adopted herein. Every contract for Personal Services shall be based upon these screening and selection procedures developed by the College. Personal Services Contracts are considered "public contracts" as defined in ORS 279A.010.
- (3) The College may enter into Personal Services Contracts with an independent contractor when:
 - (a) The work to be performed requires specialized skills, knowledge and resources in the application of highly technical or scientific expertise, or the exercise of professional, artistic, or management discretion or judgment;
 - (b) The College will not control the means or manner of the contractor's performance, but must rely on the Contractor's specialized skills, knowledge and expertise to accomplish the work. Note: The College's reservation of the right to determine and modify the delivery schedule, evaluate the quality of completed performance, and accept or reject the completed performance does not mean that the College will control the means and manner of performance; and
 - (c) Selecting a Contractor primarily on the basis of qualifications, rather than price, in accordance with the provisions of the Personal Services Contracting Rules and Procedures adopted herein would most likely meet the College's needs and result in obtaining satisfactory contract performance and optimal value for the College.
- (4) Pursuant to ORS 279A.055(2), the College has the authority to designate certain service contracts or classes of service contracts as Personal Services Contracts. Personal Services Contracts may include, but are not limited to, contracts for services performed in a professional capacity such as:
 - (a) Contracts for the services of an accountant;
 - (b) Contracts for the services of an attorney;
 - (c) Contracts for the services of a physician or dentist,
 - (d) Contracts for the services of an information technology consultant,
 - (e) Contracts for the services of a broadcaster;
 - (f) Contracts for services as an artist in the performing or fine arts including, but not limited to, any person identified as a photographer, filmmaker, painter, weaver, or sculptor;
 - (g) Contracts for services that are specialized, creative and research-oriented;
 - (h) Contracts for services as a consultant;
 - (i) Contracts for educational services;
 - (j) Contracts for investment services;
 - (k) Contracts for travel services;
 - (l) Contracts for banking services;

- (m) Contracts for auditing services;
- (n) Contracts for student loan and college receivables;
- (o) Contracts for real estate services (ORS 279A.025(2)(f));
- (p) Contracts for property management;
- (q) Contracts for employee benefit insurance (ORS 279A.025(2)(r));
- (r) Contracts for investments (ORS 279A.025(2)(q)(C));
- (s) Contracts for energy savings performance contracts (ORS 279A.025(2)(p));
- (t) Contracts for agents of record (examples where agents of record may be used are advertising, general insurance, sales of surplus property, workers compensation insurance, etcetera);
- (u) Contracts for speakers, lecturers, and performers; and
- (v) Contracts for human custodial care services;
- (w) Contracts for food service management; and
- (x) Contracts for telecourse providers.

(5) Personal Services Contracts do not include:

- (a) Contracts, even though in a professional capacity, if primarily for equipment, supplies or materials, e.g., a contract to supply all hardware and standard software is not a Personal Services Contract, but a contract with a technology consultant to design or develop a new computer system is a Personal Services Contract;
- (b) Contracts with a temporary service or personnel agency to supply labor, which is of a type that can generally be done by any skilled worker (e.g., janitorial, security guard, crop spraying, laundry, and landscape maintenance service contracts)
- (c) Contracts for services of a trade-related activity, even though a specific license is required to engage in the activity. Examples are repair and/or maintenance of all types of equipment or structures.

II. Screening and Selection Procedures and Assistance

These rules set forth procedures for the College to follow when entering into Personal Services Contracts.

- (1) The policy of the College is to select Contractors based on demonstrated qualifications and competence to perform the required services, encourage competition, discourage favoritism and obtain services at a fair and reasonable price. The purpose of this rule is to specify the College's policies and procedures for screening and selection of Contractors to perform Personal Services.
- (2) The College shall comply with the procedures set out in these rules for screening and selecting Contractors to perform Personal Services Contracts.
- (3) The College shall provide Evidence of Competition for all Public Contracts where competition exists or justify entering into contracts by direct negotiation if an exemption from the screening and selection process is utilized. While qualifications are the primary criteria, whenever the College determines that the services offered by two or more individuals or firms are equally able to meet the College's needs and are of equal value, the College shall award the contract to the individual or firm offering the service at the lowest price.
- (4) The College may procure Personal Services from Contractors who are under contract with another governmental entity pursuant to a Cooperative Agreement as permitted and subject to ORS 279A.200 to 279A.225, if such action is expressly permitted under the original contract and if the administering agency's solicitation and award process for the original contract is an open and impartial competitive process and uses source selection methods substantially equivalent to those specified in ORS 279B.055, 279B.060 or uses a competitive bidding process substantially equivalent to the competitive bidding process in ORS chapter 279C.

III. Solicitation Requirements

A. General

- (1) All formal solicitations must satisfy the requirements of this rule. Request for Proposals and Request for Qualifications must be in writing and must be advertised in accordance with the following procedures:
 - (a) All advertisements for a formal solicitation shall be placed in at least one newspaper of general circulation and in as many additional issues and publications as may be necessary or desirable to achieve adequate competition. At the option of the College, the College may publish its public notices electronically instead of, or in addition to, a newspaper of general circulation. The advertisement(s) for a formal solicitation shall be first published and appear at least once, no fewer than fourteen (14) calendar days before close of the solicitation, unless the governing body of the College, its President, or another officer authorized by the College declares in writing that a shorter period is deemed necessary in the public interest for a particular procurement. Conversely, the College shall broaden and extend public notice if deemed necessary to serve the public's interest for a particular procurement; and
 - (b) All advertisement(s) shall describe, at a minimum, a brief summary of the proposed contract, the services sought, where copies of the solicitation may be obtained, and the deadline for submitting a proposal.

- (2) The Solicitation Document must provide that the College may, at any time during the solicitation process, reject any or all proposals or cancel the solicitation without liability if it is in the public interest to do so.
- (3) Unless compensation is expressly provided for in the Solicitation Document, the Request for Proposals or Request for Qualifications must provide that the College is not responsible for any costs of any Offeror incurred while submitting Offers and that all Offerors who respond to solicitations do so solely at their own expense
- (4) The Solicitation Document must:
 - (a) Notify proposers of potential Solicitation Document addenda. Failure to provide such notice in any solicitation may prevent addenda from being incorporated into any resulting contract, and include protest procedures for all formal solicitation and selection.

B. Formal Selection Procedures

The College shall use a formal selection procedure whenever the cost of the services is estimated or anticipated to be equal to or more than the Intermediate Threshold for Personal Services contracts as this threshold is defined in CCR.301—Primary Thresholds. Under these formal procedures, Requests for Proposals (RFP) or Requests for Qualifications must be advertised in at least one newspaper of general circulation or through electronic means as indicated in Section 200, Rule 202, and in as many other issues or electronic procurement systems, and publications as may be necessary or desirable to achieve adequate competition.

- (1) Request for Qualifications. A Request for Qualifications may be used to determine whether competition exists to perform the needed services or to establish a list of qualified Contractors prior to issuing an RFP (Note: It is not mandatory that the College issue a Request for Qualifications; it may elect to forego using a Request For Qualifications before issuing an RFP.)
 - (a) At a minimum, the Request for Qualifications shall describe the particular specialty desired, the qualifications the Contractor(s) must have in order to be considered, and the evaluation factors and their relative importance. The Request for Qualifications may require information including, but not limited to: the Contractor's particular capability to perform the required services; the number of experienced staff available to perform the required services, including specific qualifications and experience of personnel; a list of similar services the Contractor has completed, with references concerning past performance; and any other information necessary to evaluate Contractor qualifications.
 - (b) A qualifications pre-submission meeting (voluntary or mandatory) may be held for all interested Contractors to discuss the proposed services. If the meeting is mandatory, the Request for Qualifications shall include the date, time and place of the meeting(s).
 - (c) Unless the Request for Qualifications establishes that competition does not exist or unless the solicitation process is canceled or all qualification statements rejected, all respondents (who met the published qualifications) shall receive a notice (or other materials as appropriate) of any required services and have an opportunity to submit an Offer in response to the College's subsequent RFP.
- (2) Request for Proposals. The RFP is used as a formal competitive solicitation that describes specific services to be performed within a defined period of time. The solicitation sets forth criteria and methods for screening, selecting and ranking the best proposal(s). The RFP may result in contracts with more than one provider.
 - (a) The RFP must either describe the situation and background for which Offers are being requested and state the outcome(s) desired, or propose a Statement of Work. The RFP must describe any conditions affecting the delivery of the services and the time period in which the services are to be completed. The RFP must, at a minimum, address the following information:
 - (i) Minimum standards and qualifications required to be met by the Offeror(s) to be eligible to provide the services;
 - (ii) The evaluation process and criteria to be used to select the Contractor(s), including the weight or points applicable to each criterion. Information must include the manner in which the Offeror's cost and pricing proposal will be evaluated;
 - (iii) A requirement to provide a list of similar services completed by the proposer(s) with references concerning past performance;
 - (iv) The closing date and time of the solicitation and the delivery location(s) for proposals;
 - (v) Reservation of the right to seek clarifications of each proposal, and the right to negotiate the Statement of Work within the scope of work described in the RFP;
 - (vi) Reservation of the right to reject any or all Proposals, if such rejection would be in the public interest;
 - (vii) Reservation of the right to cancel the solicitation, if such cancellation would be in the public interest;

- (viii) Contractual provisions that will be contained in the resulting contract;
 - (ix) The possibility of interviews; and
 - (x) Any other information to be used to evaluate, rank and select the best proposer(s). This should include, but is not limited to: anticipated contract award date, and at the College's discretion, funding information and budget requirements.
- (b) A pre-proposal meeting (voluntary or mandatory) may be held for all prospective Contractors to discuss the proposed services, solicitation provisions and contract requirements. The RFP shall include the date, time and place of the meeting(s).
 - (c) An evaluation committee shall evaluate Proposals. The College's Purchasing Department shall provide the evaluation committee with guidelines for completing evaluations consistent with the process described in the RFP. The evaluation committee may consist of College employees and, if desired, members of the community with experience in related services. Evaluators shall be selected on the basis of their ability to provide an objective, impartial evaluation of the proposals. If there is a conflict of interest, the evaluator shall declare this in writing and shall be excluded from participating in the evaluation.
 - (d) The proposal evaluation committee shall review, score and rank all responsive proposals according to the evaluation criteria in the RFP, which may include, but are not limited to, the following:
 - (i) Availability and capability to perform the work;
 - (ii) Experience of key staff on comparable projects, or in performing comparable services;
 - (iii) Demonstrated ability to successfully complete similar projects or perform similar services on time and within budget;
 - (iv) References from past clients, public and private;
 - (v) Performance history in meeting deadlines, submitting accurate estimates, producing quality work, and meeting financial obligations;
 - (vi) Status and quality of any required licensing or certification;
 - (vii) Knowledge and understanding of the required services as shown through the proposed approach to staffing and scheduling needs;
 - (viii) Fees or costs;
 - (ix) Results from oral interviews, if conducted;
 - (x) Availability of any specific required resources or equipment;
 - (xi) Geographic proximity to the project or the area where the services will be performed;
 - (xii) Identity of proposed subcontractors and their qualifications; and
 - (xiii) Any other criteria deemed relevant to the provision of services.
 - (e) Final ranking will be based on the evaluation criteria consistent with the process described in the RFP. Price will be considered, but will not necessarily govern selection of the Contractor(s).
 - (f) Contracts entered into under the formal selection procedure may be amended, provided the original contract allows for the particular amendment and the services to be provided under the amendment are included within, or directly related to, the scope of the project or the scope of the services described in the solicitation document.

C. Informal Selection Procedures

The College may use an informal selection process to obtain services if the estimated fee or contract price is less than the Minimum Threshold for Personal Services Contracts as this threshold is defined in CCR.301-Primary Thresholds.

- (1) The informal selection process shall solicit Offers from at least three qualified contractors offering the required services. Prospective contractors may be drawn from the ORPIN System and/or from the certified list of the Advocate for Minority, Women and Emerging Small Business or its list of Contractors. The College may place the solicitation on the ORPIN System and/or use the system-generated potential Offer list to meet the three (3) responses/proposals requirement for informal solicitations.
- (2) The informal selection process shall be competitive. The selection and ranking may be based on criteria including, but not limited to, each Offeror's:
 - (a) Particular capability to perform the services required;
 - (b) Experienced staff available to perform the services required, including each Offeror's recent, current, and projected workloads;
 - (c) Performance history;
 - (d) Approach and philosophy used in providing services;
 - (e) Fees or costs;
 - (f) Geographic proximity to the project or the area where the services are to be performed; and

- (g) Work volume previously awarded by the College, with the object of effecting an equitable distribution of contracts among qualified Contractors, provided such distribution does not violate the policy of selecting the most highly-qualified Contractor to perform the services at a fair and reasonable price.
- (3) All proposals received shall be reviewed and documented and the most qualified Contractor(s) selected.
- (4) If the scope of the services is revised to the extent that the estimated cost of the services is considered to be equal to or more than the Minimum Threshold as this threshold is defined in CCR.301-Primary Thresholds, and the services are still required, the College shall either (a) terminate the contract and issue a new solicitation using the formal selection procedures or procedures allowed by subsequent rules set forth in this Section, unless waived under the provisions of Section CCR.250(I)(2), or (b) seek approval by the College's Local Contract Review Board for contract amendment.

D. Selection by Negotiation

- (1) The College may procure Personal Services with Contractors directly through negotiation if the contract price is less than the Minimum Threshold as this threshold is defined in CCR.301-Primary Thresholds.
- (2) If the scope of the services is revised to the extent that the estimated cost of the services is equal to or more than the Minimum Threshold as this threshold is defined in CCR.301, the College shall solicit for a new Contractor(s) using applicable selection procedures under these rules.

Conclusion of Compliance with Law

The requirements of this rule ensure that competition will be carefully addressed and protected, if the College finds it is in the public's best interest to competitively procure Personal Services. This rule satisfies the requirements of Oregon Revised Statute ORS 279A.055 wherein the College may enter into Personal Services contracts, subsequent to the local contract review board's designation of certain service contracts or classes of service contracts as personal services contracts. Consequently, findings otherwise required by law are unnecessary here.

* * * * *

PUBLIC IMPROVEMENT CONTRACTS EXCEPTIONS AND EXEMPTIONS

Alternate Contracting Methods

CCR.280

The College may, at its discretion, exempt public improvement contracts from competitive bidding requirements utilizing Alternate Contracting Methods (ORS 279C.335(2)). These methods shall take into account market realities and modern practices that are consistent with the public policy of encouraging competition. Examples of Alternate Contracting Methods are Request for Proposals for the selection of construction manager/general contractor firms (CM/GC), and Design/Build firms.

The College shall prepare written findings that support the use of this exemption from competitive bidding and obtain approval from its local contract review board. A public hearing shall be held before final adoption (ORS 279C.335(5)) of the exemption. The findings must show compliance with ORS 279C.330, and shall include, but not be limited to, information regarding:

- (a) Operational, budget and financial data;
- (b) Public benefits;
- (c) Value engineering;
- (d) Specialized expertise required;
- (e) Public safety;
- (e) Market conditions;
- (f) Technical complexity; and
- (g) Funding sources.

Conclusion of Compliance with Law

The College must demonstrate that the use of this exemption is unlikely to encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts and will likely result in substantial cost savings to the College or the public (ORS 279C.335(2)). The requirements of this rule ensure that competition will be carefully addressed and protected, if the College's local contract review board finds it is in the public's best interest to use an Alternate Contracting Method. Consequently, findings otherwise required by law are unnecessary here.

* * * * *

First-Tier Subcontractors; Disclosure and Substitution

CCR.282

This rule amends (i.e., additions are indicated by *italics* and deletions are indicated by a line drawn through the word(s) that has been stricken.), Appendix B of these Community College Rules of Procurement (i.e., State of Oregon, Department of Justice, Model Public Contract Rules effective January 1, 2010, Division 49), as follows:

OAR 137-049-0360(2)(b) shall be replaced with:

"(b) The College may, at its discretion, open Bids publicly immediately after the Bid Closing; or it may open Bids publicly immediately following the deadline for submission of the first-tier subcontractor disclosure forms, or some other time as permitted or not prohibited by Oregon Revised Statutes."

Conclusion of Compliance with Law

As this amendment to the Attorney General's Public Contract Rules is not a Special Procurement or exemption from the competitive procurement requirements of law, the College has determined that findings of fact are not required.

* * * * *

Limited Negotiations with Bidder

CCR.283

I. Definitions

For purposes of this rule, the terms below shall be defined, as follows:

"College's Cost Estimate" shall mean the fixed limit of construction cost that has been agreed upon by the College and the College's consultant.

"Value Engineering and Other Options" refers to a process agreed upon by the College, which involves the lowest responsive, responsible bidder and may include other consultants to identify deletions or adjustments to the project to reduce the cost of such work.

“Significantly Changed” with reference to the scope of the project, shall mean deletion or adjustment of components of the project or elements of the work, which in the aggregate are estimated to cost in excess of twenty-five percent of the College’s Cost Estimate as originally designed.

II. Limited Negotiations and College’s Cost Estimate

- (1) If a project is competitively bid and all the responsive bids from responsible bidders exceed the College’s Cost Estimate, the College may, prior to award, negotiate with the Lowest Responsible Bidder utilizing Value Engineering and Other Options to bring the contract price within the College’s Cost Estimate.
- (2) The College’s negotiation with the Lowest Responsible Bidder shall not result in award of the contract to such bidder if the scope of the project is Significantly Changed from that specified in the Invitation to Bid at the time of bidding.
- (2) If the College elects to use the negotiation process under this rule, the College will not produce for public inspection prior to award or termination of the negotiation process, any records of the Lowest Responsible Bidder. After award of the contract or termination of the negotiation process, the College will make available for public inspection such records as are subject to inspection under any other provision of law.

III. Negotiation and Award Process

- (1) If the Lowest Responsible Bidder’s Bid exceeds the College’s Cost Estimate, the College may, but shall not be required to, negotiate with the Lowest Responsible Bidder to bring the cost of the project within the College’s Cost Estimate.
- (2) If the College elects to negotiate with the Lowest Responsible Bidder, the College shall give written notice to the Lowest Responsible Bidder of its intent, within ten (10) days of bid Opening. The notice shall include disclosure to the Lowest Responsible Bidder of the College’s Cost Estimate.
- (3) During any such negotiations, the Lowest Responsible Bidder’s bid shall remain firm for the period prescribed in the Bid. At all times until such expiration of the Bid, and notwithstanding the occurrence of negotiations under this rule, the College shall have the right to accept the original Bid.
- (4) Upon and within five (5) days of receipt of the College’s notice of intent to negotiate, the Lowest Responsible Bidder and the College’s representative shall meet and present to each other, in writing, any proposals either may have for Value Engineering and Other Options to bring the project within the College’s Cost Estimate.
- (5) The College and the Lowest Responsible Bidder shall negotiate in good faith regarding value engineering and other options, exerting their best efforts to bring the cost of the project within the College’s Cost Estimate.
- (6) If the College and the Lowest Responsible Bidder are able to reach agreement through value engineering and other options to identify measures which bring the project within the college’s Cost Estimate, but do not Significantly Change the scope of the project, such value engineering and other options shall be reduced to writing and signed by the Lowest Responsible Bidder as an amendment to its bid and will be incorporated into the Contract at the time of award.
- (7) Upon award, the terms and conditions of the amendment to the Bid shall be made public.
- (8) Any protest of this negotiation process shall be subject to the Protest Process specified in the Invitation to Bid.

Conclusion of Compliance with Law

This rule satisfies the requirements of Oregon Revised Statute 279C.340 wherein the College may negotiate with the lowest responsive, responsible bidder in accordance with rules adopted by the College. Consequently, findings otherwise required by law are unnecessary here.

* * * * *

SECTION 300 SUPPLEMENTARY PROVISIONS – CONTRACTING RULES

These Community College Rules of Procurement were drafted by participating statewide community college representatives with the intent that Sections 100 and 200 be adopted in their entirety and remain unchanged by their respective institutions unless modified by participating committee members at a later date and subsequently and unanimously ratified by their local contract review boards. Section 300 has been specifically set aside to address the unique philosophies, cultures, and/or concerns of the various community colleges, voting districts, and contract review boards. In the event of conflict between rules or sections within these Community College Rules of Procurement, the rules in Section 300 shall take precedence over the Appendices in Section 300, and the rules in Sections 100 and/or 200.

* * * * *

Primary Thresholds

CCR.301

Rule: Competitive procurement processes need not be used for the procurement of goods and services which total, on a completed project cost basis, less than \$5,000.

Competitive processes shall be used for the procurement of goods and services which total, on a completed project cost basis, \$5,000 or more. Informal processes may be used for projects totaling between \$5,000 and \$99,999; formal processes shall be used for the procurement of goods and services which total, on a completed project cost basis, \$100,000 or more.

The Minimum Threshold is defined as \$100,000; Intermediate procurements are those costing at least \$5,000 and less than \$100,000; and Small procurements are those costing less than \$5,000.

Comment: Completed project cost basis means the total cost of performing one discrete, identifiable totality of work, including all components, shipping, warranty costs, service agreements obtained in conjunction with the purchase contract, reimbursables, and any other associated costs.

* * * * *

Agents of Record

CCR.303

Rule: Agents of Record shall be selected using competitive processes for professional services unless otherwise exempted through another portion of this rule.

Competitive procurement processes need not be used for executing the purchase recommendations of Agents of Record who are selected by competitive proposals and who are acting on behalf of the institution to provide purchase recommendations. If such agents are not selected by competitive processes, then each procurement an agent recommends on behalf of the institution shall comply with these rules for the respective type and dollar value of procurement.

Comment: An agent is selected for and delegated to perform certain tasks on behalf of the institution. An Agent of Record is designated to identify and recommend purchases in a certain area of expertise or endeavor. Such an agent may also be designated a consultant in special circumstances (although consultant is not the technically correct term for agency activities and its use may prevent legal remedies associated with agency activities).

In any case where a selection or recommendation is made by an Agent of Record for procurement on behalf of the institution over the quotation threshold, the Agent of Record shall document the file with enough competitive information or reasons for lack thereof and with information which document that, in the agent's judgment, the procurement is in the best interest of the institution.

Agents may be used for the selection and procurement of such commodities and services as:

1. Advertising (radio/TV/newspaper/periodical)
2. Employee benefit insurance
3. General insurance
4. Investments
5. Real estate activities
6. Sales of surplus property
7. Workers compensation insurance
8. Others

See also Personal Services Contracting Rules, CCR.250

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Alcoholic Beverages

CCR.305

Rule: Competitive procurement processes need not be used for the procurement of any type of alcoholic beverages.

Comment: Because the purchase of these commodities is so brand-specific, dependent upon subjective tastes, and subject to availability and substitution, it is inappropriate to purchase these items on a competitive selection basis. Where equal competition can be achieved in this field, it is certainly recommended.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Art and Other Products of the Creative Process

CCR.307

Rule: Competitive procurement processes need not be used for the procurement of art and other products of the creative process.

Comment: Products of "the creative process" could include such things as miscellaneous written materials, books, periodicals, computer generated art, lesson plans, electronic and electronically-generated art, music in all its original forms, etcetera.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Athletic Supplies

CCR.309

Rule: Competitive procurement processes need not be used for the procurement of athletic supplies for internal use by college athletes; however, in all cases, educational discounts shall be requested from the selected supplier and costs shall be compared with those being offered to not less than two other similar institutions.

Comment: Athletic supplies may be purchased by brand name definition in any quantities without competitive processes. In all cases where the value is greater than the quotation threshold, the file shall be documented with information supporting the purchase, the reason that it was inappropriate to obtain competitive information and the fact that an educational discount was sought.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Brand Names and Proprietary Product Names

CCR.311

Rule: Solicitation specifications shall not expressly or implicitly require any product of any particular manufacturer or seller except as authorized in these rules.

1. "Or Equal" Specification. An institution may specify a particular brand name, make or product suffixed by "or equal," "or approved equal," "or equivalent," "or approved equivalent," or similar language if there is no other practical method of specification.

2. Specifying a Particular Brand Name, Make, or Product. An institution may specify a brand name, make, or product without an "or equal" or equivalent suffix if there is no other practical method of specification, after documenting the procurement file with the following information:

- a. Specification of the brand name, mark or product would result in substantial cost savings to the institution; or
- b. Efficient utilization of existing equipment or supplies requires the acquisition of compatible equipment or supplies; or
- c. All comments from potential suppliers on the issue (following a good faith effort to notify local or generally known suppliers of the specified product and inviting such suppliers to submit comments); or
- d. Findings of current market or product research to support the determination that the product is extremely unique and is available from only one seller.

When a brand name without the "or equal" option is used in a specification, the solicitation shall be documented with the rule under which the brand name is being activated. Use of brand names shall rest with the specifier; prior approval by an outside authority is not required.

Comment: Where there is more than one source of the desired item and the item is NOT available directly from the manufacturer or original equipment supplier *and/or an active market exists for the item*, the procurement shall be treated as any other for which there exists an active, competitive market, i.e., the procurement shall not be exempt from competitive processes even though brand names and/or proprietary product names may be used to specify the item. See also Sole Source Purchases.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Computer Hardware and Software

CCR.313

Rule: Competitive procurement processes need not be used for the procurement of computer system hardware and software provided the hardware or software is required to match or be specifically compatible with existing equipment or that the items are copyrighted and available from only one source.

Comment: Where there are more than one reseller of software and/or hardware and the items are NOT available directly from the manufacturer or original equipment supplier and an active market exists, the procurement shall be treated as any other for which there exists an active, competitive market, i.e., the procurement shall not be exempt from competitive processes.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Contract Amendments & Reinstatements

CCR.315

A. The College may award an amendment(s) for additional work or product which is reasonably related to the scope of work under the original contract, including change orders, extra work, field orders, or other changes in the original specifications that increases the original Contract Price, without competitive bidding or alternate contracting method, for a Special Procurement that is exempted under these rules or is subject to the following conditions:

- (1) Contract amendments must be made in writing;
- (2) Amendments to contracts must fall within the scope of the original solicitation. Amendments shall not be used to circumvent rules establishing approvals at certain monetary thresholds;
- (3) The original contract was let by competitive bidding or alternative procurement process;
- (4) Such amendment(s) shall not exceed a total of thirty-three percent (33%) of the original Contract Price for goods and services or fifty percent (50%) over the original Contract Price if the Contract is for public improvements, public works, or general trade services and the amount of the amended Contract is defined as a Small or Intermediate Procurement as these thresholds are defined in CCR.331, "Public Contracts Under Certain Dollar Amounts," Supplementary Provisions of the Community College Rules of Procurement;
- (5) Such amendment(s) shall not exceed a total of fifty percent (50%) of the original Contract Price, if the original Contract Price exceeds the threshold for Intermediate Procurements as this threshold is defined in CCR.331, "Public Contracts Under Certain Dollar Amounts," Supplementary Provisions of the Community College Rules of Procurement, and the Contract is for public improvements, public works, or general trade services;
- (6) The local contract review board approves the amendment if the contract is for a Personal Services Contract and/or when the amended value of the contract exceeds the threshold for Intermediate Procurements for competitively procured products or services as that threshold is defined in CCR.331, "Public Contracts Under Certain Dollar Amounts," Supplementary Provisions of the Community College Rules of Procurement.

- B. The "Reinstatement of Expired Contracts" means the action of reinstatement of an expired Contract that was previously properly executed containing all the required approval signatures and following all required procurement processes. The College may approve reinstatement of an expired Contract if the following conditions are met:
- (1) The College determines concisely, in writing, that the failure to extend or renew the Contract in a timely manner was due to unforeseen or unavoidable conditions;
 - (2) The written reinstatement justification is presented to Purchasing for approval within ninety (90) days after expiration of the original Contract; and
 - (3) The reinstatement is exclusively for the purpose of permitting completion of the work or services for no additional compensation; or
 - (a) When the services are of a continuing or repetitive nature, which are compensated at an hourly, daily or similar periodic rate, the reinstatement either:
 - (i) Does not increase the rate of compensation; or
 - (ii) Does not increase the rate of compensation so as to exceed the rate of the increase determined by comparing the Portland, Oregon Metropolitan Area Consumer Price Index (all items), published immediately prior to the date the original contract was established with the same Index published immediately prior to the date of the reinstatement and extension.
 - (4) When a Contract is reinstated pursuant to this Rule, the College may compensate the Contractor, at the rate of compensation established in the original Contract, for work performed in the interim between the expiration of the original Contract and the execution and approval(s) of the extension or amendment.
 - (5) No reinstatement of a Contract must modify the original contract except with respect to the time for performance.
 - (6) If the reinstatement of a Contract pursuant to this rule raises the aggregate amount of compensation to a level that requires approval by the Local Contract Review Board, the College must obtain such approval before the extension becomes binding and before any services may be performed under the reinstated contract.
 - (7) Once a contract is reinstated, it is in full force and effect, as if it had not expired.
Stat. Auth: ORS 279A.065(5)(a); ORS 279A.070

Conclusion of Compliance with Law

Contracts are living entities. The work they represent is subject to change at any moment; contract amendments record and formalize those changes. Options for change orders are needed for contract administrators and contractors to perform the work in the most efficient manner. As the contract amendment process is not an exemption from the competitive procurement requirements of law, the College has determined that findings of fact are not required. It is unlikely that this process will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts as required by ORS 279B(3)(a). Consequently, findings otherwise required by law are unnecessary here.

* * * * *

Cumulative Awards of Small Contracts (i.e., Anti-Fragmenting Rule)

CCR.316

When the College awards a series of small contracts with values less than \$100,000, intends to award a series of such contracts, or is likely to award a series of such contracts within one fiscal year, the sum of which will, or is likely to, meet

or exceed \$100,000, and the Work of which is similar, identical, or within the same operational domain, the College shall submit findings to its Local Contract Review Board to the effect that:

- (1) The contracts are not intentionally fractionalized to avoid sealed, competitive public procurement; and,
- (2) Competition is not being diminished by the awarding of such contracts and the consequent avoidance of public advertising of the requirement; and,
- (3) Other requirements such as those of the Bureau of Labor and Industries, (prevailing wage rates), bonding, insurance and OMWESB (Office of Minority, Women and Emerging Small Business, reporting requirements), will not be avoided by the award of such contracts;

or, the College shall formulate and issue a formal solicitation for the totality of such annual requirements, and shall, as a result of such solicitation, establish a requirements contract naming one or more qualified providers, for the provision of the required goods or services.

Conclusion of Compliance with Law

This rule is intended to apply to all goods, services, client services, public improvements, public works, maintenance, repair, supplies, and all other College requirements. Its purpose is to ensure that the College does not intentionally or inadvertently exceed the College’s formal competitive procurement threshold requirement of \$100,000 without good cause and without the approval of its Local Contract Review Board, and that compliance with other statutory requirements invoked by the formal competitive procurement threshold requirements (such as prevailing wage rates, maximizing competition, minority contracting and reporting requirements, and the like), are not avoided. As the Cumulative Awards of Small Contracts Rule is not an exemption from the competitive procurement requirements of law, the College has determined that findings of fact are not required.

* * * * *

Educational & Institutional Cooperative Service, Incorporated (E & I)

CCR.317

Competitive procurement need not be used to conduct procurements through the Educational & Institutional Cooperative Service, Incorporated (E & I). Lane Community College is a member of this legally established purchasing cooperative through its membership with the National Association of Educational Buyers. To qualify for E & I membership, an organization must be exempt from federal taxes and be one of the following: non-profit college, university, private school, educational organization, hospital, health care group purchasing organization or institution. Purchases through the E & I Cooperative are exempt from competitive processes, regardless of dollar amount, from the requirements of competitive procurement, and the requirements contract provisions.

Findings of Fact

E & I is a member-owned, not for profit cooperative, which provides goods and services, at the best possible value, to its membership of close to 2000 tax-exempt colleges, universities, prep schools, hospitals, medical research colleges and hospital purchasing organizations located throughout the United States. E & I is positioned to aggregate volume and purchase collectively on a national basis. State contracts and local consortia contracts are sometimes not as advantageous to the College because of their limited services and offerings. E & I is leading a concerted effort to conduct competitive bidding in a manner acceptable to a substantial number of the fifty states.

Conclusion of Compliance with Law

It is unlikely that this Special Procurement will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B.085(3)(b)(B)), by expediting its procurement processes, eliminating procurement redundancies, and maximizing volume discounts achieved through the College’s participation with a nationwide cooperative.

* * * * *

Energy Management Controls Systems

CCR.318

Competitive procurement need not be used for Energy Management Controls Systems provided the hardware or software is required to match or be specifically compatible with existing equipment (*see Brand Names or Marks, “or Equal,” Single Seller and Sole Source*), or that the items are available from only one source and the College has determined that competition does not exist.

In determining the appropriate procurement method for Energy Management Controls Systems or whether competition exists, the College may consider the following factors: the extent to which alternative services offered are comparable or substitutable in technology; service provided; performance; the extent to which latest upgrades and options are offered by the manufacturer; upward and downward compatibility; and the extent to which alternative providers can respond to the College's interests in consistency and continuity of services throughout its service area, volume discounts, equitable service for all users, centralized management, and limiting College liability.

Conclusion of Compliance with Law

This rule will not encourage favoritism or substantially diminish competition in the awarding of public contracts. An energy management controls system is essentially a system of data processors, input/output devices, field devices (thermostats, terminal control units, etc.), and software that result in energy-saving strategies. This rule provides additional parameters for consideration that are complementary to the Public Contracting Code where competition does exist. It is not intended to diminish the College's ability to consider other factors or limit fair and open competition when arriving at best value. It is the policy of the State of Oregon that public contracting activities should provide effective outcomes that represent optimal value to the contracting agency, and to the greatest extent feasible, be consistent with market practices (ORS 279B.010(1)).

Additionally, pursuant to ORS 279A.025(2)(p), the Public Contracting Code does not apply to energy savings performance contracts; consequently, findings otherwise required by law are unnecessary for the procurement or distribution of Energy Management Controls Systems.

* * * * *

Exceeding Thresholds for Quotations or Formal Bidding CCR.319

Rule: When an award has been appropriately made in compliance with all applicable rules (i.e., a legal contract has been established), the resulting contract may be amended in conjunction with the prevailing rules for such amendments, even though the amended value may rise above a limit for obtaining quotations or for formal public bidding.

Comment: Such contracts need not be re-quoted or re-bid provided that they are amended appropriately and within the limitations of such amendments. If the limitations on amendments will be exceeded by a proposed amendment, either an exemption from public bidding must be sought or the project terminated and re-bid.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Exception (Including Sole Source) – Purchases of Goods or Services through CCR.321

Competitive procurement processes need not be used for the procurement of goods or services when waived, in writing, by the college's chief fiscal officer or designee with such approved waiver(s) being placed on file in the Purchasing office or other designated official location; notification shall subsequently be given to the college's Local Contract Review Board. This exception is to be used infrequently and only when deemed by the chief fiscal officer or designee to be in the best interest of the College and shall be reported to the Local Contract Review Board at the next regularly scheduled meeting, if it meets or exceeds the Intermediate Procurement threshold as defined in CCR.331, "Public Contracts Under Certain Dollar Amounts."

Findings of Fact

1. In some cases, the use of competitive procurement processes is not practicable due to unforeseen circumstances, unreasonable costs, emergency, difficulty in locating vendors even after extensive searches, or where time constraints occur that are due to circumstances beyond reasonable control.
2. All practical measures will be taken to encourage competition when possible.
3. The chief fiscal officer or designee will report to the Local Contract Review Board the reason(s) that competitive procurement processes were deemed to be impracticable and what steps, where possible, were taken to encourage

competition if the acquisition meets or exceeds the Intermediate Procurement threshold as defined in CCR.331, "Public Contracts Under Certain Dollar Amounts;" a copy of the waiver shall be placed on file in the Purchasing office or other designated official location.

Conclusion of Compliance with Law

It is unlikely that this exemption from competitive procurement processes will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts as required by ORS 279B.085(3)(a), since it would be an Exception, and would be due to extenuating circumstances. Additionally, this Special Procurement will substantially promote the public interest in a manner that could not practicably be realized by complying with requirements that are applicable under ORS 279B.055, 279B.060, 279B.065, or 279B.070 or under any rules adopted thereunder. (Stat. Auth.: ORS 279B.075 and 279B.085, Sole-Source Procurements and Special Procurements, respectively.)

* * * * *

Fuels

CCR.323

Rule: Competitive procurement processes need not be used for the procurement of automotive and aviation gasoline, diesel fuel and lubricants if the institution seeks competitive quotes from local suppliers (if available) and the institution makes its purchase from the least expensive source which provides the best service in terms of fuel quality, delivery time and *safety of delivery and transfer*, and retains written justification for the purchase made.

Comment: Requirements contracts or spot purchases may be awarded for fuels. Emphasis should be on total compliance with federal, state and local safety requirements including training of contractor staff, performance evaluations and substance abuse testing when fuels are being delivered to the site of an institution (such as would be the case when aircraft are being fueled or when in situ tanks are being filled).

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Insurance

CCR.325

Rule: Competitive procurement processes need not be used for the procurement of all types of insurance provided that such insurance is procured through an agent (generally called an Agent of Record), designated for the purpose and selected through the processes for selection of personal services. In all cases, insurance purchases recommended by an agent shall be documented as to the selection process, the relative costs and reasons for the recommendation. *If an Agent of Record is not utilized, competitive processes involving quotations, bids or proposals shall be used for the procurement of insurance.*

Comment: None.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Investments

CCR.327

Rule: Competitive procurement processes need not be used for investment of public funds or other funds being administered by the institution or the borrowing of funds when such investment or borrowing is contracted pursuant to duly enacted statute, ordinance, charter, or constitution.

Comment: Institutions should check the rules of donors and grantors of funds to ensure that no restrictions apply to interim or long-term investment of funds entrusted to the institution.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Medical, Dental and Scientific Laboratory Instruments and Supplies

CCR.329

Rule: Competitive procurement processes need not be used for the procurement of medical, dental and scientific laboratory instruments and supplies (supplies includes cadaveric organs, transplant organs, other transplants and all medical/dental teaching supplies). Additionally, these supplies may be procured in any quantity and any dollar amount by use of brand names and product names, provided that such purchases comply with the requirements for use of brand name and product name specification.

Comment: Where competition exists, it is strongly recommended that competitive quotations be solicited and costs be compared.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Public Contracts Under Certain Dollar Amounts

CCR.331

- (1) The College may, at its discretion, enter into public contracts not to exceed \$100,000 for the purchase of goods, materials, supplies, and services, including contracts for architectural, engineering, land surveying, and related services, and public improvements or general trade services, without issuing a formal competitive Solicitation Document, if the College has determined that the awarding of the contract without issuing a formal competitive Solicitation Document will result in cost savings and the following conditions are met:
 - (a) The contract is for a single project, and is not a component of or related to any other project;
 - (b) When the amount of the contract does not exceed \$5,000, defined herein as a "Small Procurement," the College shall, where feasible, obtain informal competitive quotes, unless the contract is for architectural, engineering, land surveying, and related services procedures in which case a Direct Appointment (see Appendix A, 137-048-0200), may be made for contracts with Estimated Fees less than \$25,000;
 - (c) When the amount of the contract is more than \$5,000, but less \$100,000, defined herein as an "Intermediate Procurement," and is not for architectural, engineering, land surveying services, or related services, the College shall obtain a minimum of three informally solicited competitive quotes. At least one of the three quotes should be obtained from a Minority/Women/Emerging Small Business firm. The College shall keep a written record of the source and amount of the quotes received. If three quotes are not available, a lesser number will suffice provided that a written record is made of the effort to obtain the quotes;
 - (d) The College will abide by ORS 279A.025(4), regarding Qualified Nonprofit Agencies, unless the required goods, materials, supplies or services are unavailable from a Qualified Nonprofit Agency as provided in ORS 279.835 to 279.855;
 - (e) The goods or services, or class of goods or services, are available from only one source and the determination of a sole source is based upon written findings in accordance with the provisions set forth in ORS 279B.075.
- (2) The College may, at its discretion, enter into public contracts for trade-related projects, i.e., construction, maintenance, repair, or similar labor and materials contracts without competitive bidding if the College has determined that the awarding of the contract without competitive bidding will result in cost savings and the following conditions are met:
 - (a) The contract is for a single project, and is not a component of or related to any other project;
 - (b) When the amount of the contract does not exceed \$5,000, the College should, where feasible, obtain competitive quotes (ORS 279B.065);
 - (c) When the amount of the contract is more than \$5,000, but less than \$100,000 the College shall obtain a minimum of three competitive quotes. The College shall keep a written record of the source and amount of the quotes

received. If three quotes are not available, a lesser number will suffice provided that a written record is made of the effort to obtain the quotes;

(d) When the contract is for a “public improvement” as defined in ORS 279A.010(1)(aa) and/or for “public works” as defined in ORS 279C.800(5), and the contract price exceeds \$25,000 but is less than \$50,000, the College and the contractor shall comply with:

- (i) The prevailing wage provisions of ORS 279C.800 to 279C.870, when applicable;
- (ii) The contractor registration requirements of ORS 701; and
- (iii) Any other law applicable to such a contract.

(3) If more than one supplier may be available and the total purchase is estimated to exceed \$100,000, the College shall select a contractor through a formal competitive solicitation process;

(4) Pursuant to ORS 279C.105, when the contract is for architectural, engineering, land surveying, and related services, and the Estimated Fee is than \$100,000 or greater, the College shall screen and select a contractor through a formal competitive solicitation process as these procedures are defined in Appendix A, 137-048-0220, of these Community College Rules of Procurement.

(5) Renegotiated Contracts for Supplies and Services

The College may renegotiate the terms and conditions, including the Contract Price, of a Contract without additional competition and amend a Contract if it is in the best interest of the College subject to the following conditions:

- (a) The College must determine that, with all things considered, the renegotiated Contract is at least as favorable to the College as the original Contract; and
- (b) The renegotiated Contract will not have a total term greater than allowed in the original Solicitation Document, Contract or approval of a Special Procurement after combining the initial and extended terms. For example, a one-year Contract, renewable each year for up to four additional years, may be renegotiated as a two to five-year Contract, but not beyond a total of five years. Also, if Contracts with a single Contractor are restated as a single contract, the term of the single Contract may not have a total term greater than any one of the prior Contracts.
- (c) If a Contractor offers a lower price in exchange for a change in term or condition that was expressly rejected in the original solicitation, the amended Contract may be structured with this changed term as an optional, but not as a mandatory Contract term.
- (d) If the Contract is the result of a Cooperative Procurement, the amended Contract must be within the Scope of the Original Contract and may not materially change the terms, conditions, and prices of the Original Contract.

Comment:

Public contract shall mean the “*completed project cost basis*” of a public contract (i.e., the total cost of performing one discrete, identifiable totality of work, including all components, shipping, warranty costs, service agreements obtained in conjunction with the purchase contract, reimbursables, and any other associated costs).

Conclusion of Compliance with Law

This rule is more restrictive than the requirements of the Public Contracting Code. As such, it is not an exemption or Special Procurement to the competitive bidding requirements of law. Consequently, findings otherwise required by law are unnecessary here.

* * * * *

Procurement related College Policies

CCR.332

Rule: The College Online Policy and Procedure System (COPPS) implements these rules.

Comment: The College adopts many internal procedures which affect the process of college purchasing. Examples include authority to authorize specific procurements, terms and conditions of Purchase Orders, specific processes for obtaining and documenting quotations received and capital asset management. The college has determined that it is in the interest of the college to maintain a dynamic system of recording and posting procedures. For specific information on College procedures affecting procurement, see <http://www.lanecc.edu/cops/index.htm>.

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Real Estate

CCR.333

Rule: Competitive procurement processes need not be used for the procurement and disposal of real estate.

Comment: Many real estate transactions must, of necessity, take place in private in order to ensure that public disclosure will not have negative affects upon price or other contractual considerations. If the institution has the statutory authority to perform real estate transactions, all such transactions are considered to be external to the public procurement process (which is limited to the issues of personal property and services and excludes real property).

Conclusion of Compliance with Law

It is unlikely that this will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.

* * * * *

Rejection of an Offer

CCR.335

This rule amends (i.e., additions are indicated by *italics* and deletions are indicated by a line drawn through the word(s) that has been stricken.), Appendix A of these Community College Rules of Procurement (i.e., State of Oregon’s DOJ Model Public Contract Rules 2004, Division 48), as follows:

ORAR 137-047-0640(1)(b) shall be replaced with:

“(b) The College ~~shall~~ *may* reject an Offer upon the College’s finding that the Offer.”

ORAR 137-049-0440(1)(b) shall be replaced with:

“(b) The College ~~shall~~ *may* reject an Offer upon the College’s finding that the Offer.”

Conclusion of Compliance with Law

As this amendment to the Attorney General’s Public Contract Rules, 2004, is not a Special Procurement or exemption from the competitive procurement requirements of law, the College has determined that findings of fact are not required.

* * * * *

Sole Sources Purchases

CCR.337

Rule: Competitive procurement processes need not be used for the procurement of goods or services when the kind or type desired is available only from one source.

An institution may purchase a particular product or service available from only one source, after documenting the procurement file with findings of current market research to support the determination that the product is available from only one seller or source and,

1. efficient utilization of existing equipment or supplies requires the acquisition of compatible equipment, supplies, or services, or,
2. instructional parameters suggest that such equipment, supplies, or services are the most appropriate method of achieving the instructor's goals and objectives of the courses being offered.

* * * * *

Space Rentals (hotels, conferences, temporary offices, etcetera)

CCR.339

Competitive procurement need not be used for the rental of real estate, floor space or other short- or long-term rentals of physical space.

Findings of Fact

Many space rental transactions must, of necessity, take place in private in order to ensure that public disclosure will not have negative effects upon price or other contractual considerations. Additionally, rentals are subject to considerable personal judgment in the selection of the space, its availability, its surrounds, its geographical location, the landlord, and the contract terms. Many of these items are not subject to negotiation or are extremely difficult to compare objectively. Moreover, many such rentals must be finalized in extremely short periods, occasionally within minutes, or the

arrangement may be lost to another offeror. It is not in the best interest of the public to disadvantage the College by necessitating an arduous selection process for rentals of space, which, of necessity, are highly subjective activities.

Conclusion of Compliance with Law

It is unlikely that this Special Procurement will result in favoritism in the awarding of public contracts or substantially diminish competition since all vendors, including Oregon businesses, are able to compete (ORS 279B.085(3)(a)), and it will enable the College to promote the public interest (ORS 279B(3)(b)(B)), through expediting its procurement processes without compromising integrity for cost.
