Furniture Accommodations Student Agreement

Center for Accessible Resources (CAR)

All students using a furniture accommodation are responsible for understanding the following:

- Furniture can take up to ten (10) business days to be placed after being requested in the AIM portal.
- Approved furniture will be placed in each class the student requests. Students are not permitted to move furniture to their classrooms.
- Students must inform CAR if furniture has not been placed in their classroom within the ten (10) business day timeline.
- Students must inform CAR if there are issues or defects with the furniture placed.
- The college has different kinds of furniture to meet similar needs. Furniture may vary slightly between placements.
- Requests for specific styles of chairs are not accepted.
- Arms of Alternate Chairs are not to be used as physical assistance to get in or out of the chair.
- Furniture accommodations for a Co-Op Education placement, clinical, or other non-classroom location must be requested through CAR/AIM. The student must then inform CAR of the location (address) of their Co-Op, clinical, or non-classroom location.
- Furniture should not be requested for online classes in AIM. If this is done CAR will remove this request and contact the student.

I have read and understand the agreement for students using furniture accommodations requested through the Center for Accessible Resources at Lane Community College.
