LANEALERT!

"LaneAlert!" is a text notification system, provided by AlertSense, that allows the college to send emergency text messages to students, faculty, and staff through their registered personal cellular devices.

Lane offers notifications to students and faculty in the event of a campus emergency and/or school closure in the following ways:

- Website announcements in the "News and Events" box on the Lane home page
- Radio announcements on KLCC and other local radio stations
- Television news announcements
- Email and text messaging (requires signing up)

Sign up by following these steps:

1. Log into myLane
2. In the "Home" tab, locate the box labeled "Personal Information"
3. Select the "LaneAlert Emergency Notifications" link
4. Select which notifications you would like to receive
5. Scroll down to the very bottom of the page and click "Save Changes"

SEVERE WEATHER

Campus closures are announced on LaneAlert, FlashAlert.net, the college homepage, Facebook and Twitter pages, and on the switchboard.

For more information on severe weather visit: www.weather.com

More Local Weather Info: National Weather in Portland, OR

CPR MADE EASY

CPR IS AS EASY AS

C-A-B

COMPRESSIONS
Restore blood circulation
with chest compressions

AIRWAY

Clear the airway
BREATHING

Give mouth-to-mouth
rescue breaths

To request this information in an alternate format contact the **Center for Accessible Resources** at (541)463-5150 or accessibleresources@lanecc.edu

VOLUNTEER TEAMS

HAZMAT

LCC Hazmat personnel are specially trained to handle a variety of Hazmat situations. Hazmat includes CBRNE (Chemical, Biological, Radiological, Nuclear, and Explosives) emergencies and minimizing the dangers associated with them.

Visit the HAZMAT Team's webpage at:
www.lanecc.edu/epal/hazmat/team

CAMPUS CERT

C-CERT is designed to serve and safeguard Lane Community College through efficient and effective volunteer service, which helps protect life and property, ensuring "the greatest good for the greatest number." When called upon, C-CERT volunteers provide basic care, stabilization, and information within the campus community until emergency responders can arrive on the scene.

Visit the C-CERT Team's webpage at:
www.lanecc.edu/epal/ccert

FIRES

Prepare before a fire. ALWAYS familiarize yourself to "where you are" and be sure to know how to reach the TWO nearest EXITS. Remember that in a fire situation, smoke is blinding and will bank down in the rooms and hallways. This condition may force you to crouch or crawl to escape to safety. By ALWAYS being aware of your surroundings, your knowledge of the nearest EXITS and having a PLAN will greatly increase your ability to deal with sudden emergencies.

NEVER ATTEMPT TO PUT OUT A FIRE ON YOUR OWN! (Unless the fire is very small and you have been trained to do so.)

Operating your fire extinguisher:

Pull the pin
Aim at the base
Squeeze trigger
Sweep

Report ALL fires, no matter how small or regardless to property damage, to **Public Safety** at:
(541)463-5555

For more information on fire response visit:
www.lanecc.edu/epal/fire

EARTHQUAKES

"Drop, Cover, and Hold On" is the appropriate action to reduce injury and death during earthquakes. Great ShakeOut earthquake drills (www.shakeout.org) are opportunities to practice how to protect ourselves during earthquakes.

Learn more at:
www.lanecc.edu/epal/earthquake

FLOODS

- Turn Around, Don't Drown!
- Avoid walking or driving through flood waters.
- Just 6 inches of moving water can knock you down, and 2 feet of water can sweep your vehicle away.
- If there is a chance of flash flooding, move immediately to higher ground.
- If floodwaters rise around your car but the water is not moving, abandon the car and move to higher ground. Do not leave the car and enter moving water.
- Avoid camping or parking along streams, rivers, and creeks during heavy rainfall.

Learn more at:
www.lanecc.edu/epal/flood

WILDLIFE

Public Safety has responded to multiple calls from concerned students and staff regarding suspicious wildlife activity. This suspicious activity has consisted of animals, which are normally nocturnal, such as raccoons and skunks, whom make appearances during daylight hours. Public Safety has also received several reports of juvenile wildlife, such as coyotes, around areas that are populated with humans. Keep in mind that nocturnal animals that suddenly become daylight dwellers are not necessarily sick or injured. These animals may be looking for food (most are very opportunistic hunters) for themselves or their young, especially in spring or early summer.

Avoid contact with wild or stray animals. Report animals behaving suspiciously to **Public Safety** at:
(541)463-5558

Never attempt to feed, pet, or handle wild animals or strays.
