

Note: In order to register for Math classes, students must either have completed the prerequisite course with a “C-” or better within the past two years (or within five years for courses MTH 251 or above) or received a placement by the College’s Math Placement process.

* The MTH 097 component of the MTH 112 prerequisite can be satisfied by passing MTH 097 or any other Geometry class without time restriction (even in HS). See Math Office for details (16/166, 541-463-5454, MathOffice@lanec.edu.)
