Welcome & Introductions

- Members introduced themselves to each other and reported industry news.
- Gerry has been working with new employers in Coop, including Cascade Software Solutions for programming and accounting software. Data Logic has hired students in Networking.
- Lane is hiring a Co-op Education Coordinator in Business. Send potential recruits to Human Resources Department, or to Gerry.
- Brian announced Lane will have twenty-five graduates in Programming this year. This is triple the number from 2019.
- Toni from IP Services reported they are hiring IT Engineers.
- Tim from IEQ Technology announced they recently acquired some significant contracts with programmers for universities and research.
- Joseph G. reported Sentinel One hired a former CIT student for IT Management and will be hiring interns in the fall due to recent growth.
- Michele from Slocum stated they are creating MRIs that are web based and can be emailed to patients.
- Aaron is a software architect from Sheer ID and they are engineering automatic testing and machinery. They verify student statuses for discounts.
- Dylan from BPMCPA/Infor@Risk reported an internal restructuring resulting in a large influx of state work. They may be hiring soon.

CIT Advisory Meeting Minutes

Thursday, February 13, 2020

<ul style="list-style-type: none">• Gerry reported a former graduate hired at the University of Oregon is working for Microsoft. There is a need to hire another student representative as Frankie Gold moved on and Jennifer Schmidt moved out of the area.• Gerry announced big retirements coming in CIT at Lane. Mari Good and Jim Bailey intend to retire in June 2021. Brian Bird plans to retire in 2022.• Paul Wilkins announced that AAS in Computer Simulation & Game Development degree will be discontinued. Game Art AAS degree is to be moved under Media Arts program.• Joseph Colton announced that Career Pathways Certificate in Network Security will be discontinued due to new AAS in Cybersecurity degree.

Action Items		Person Responsible	Deadline

Budget Restructuring

<ul style="list-style-type: none">• Lane is merging divisions as a way to create efficiencies in response to a significant budget shortfall for 2020-2021.• The Business and CIT Division merged with Culinary last year, and it will now include the Advanced Technology Department.• Lane is considering a Faculty Chair model to assist with administration of these newly formed divisions.			
Decisions			
Action Items		Person Responsible	Deadline

LCC Bond 2020

<ul style="list-style-type: none">• Lane is going for a \$121.5 million bond in the Tuesday, May 19th, primary election. It will be used for buildings, busses and books but not operational funds.• If the Bond is approved, Lane will create a new, state-of-the art Cybersecurity Lab.

CIT Advisory Meeting Minutes
Thursday, February 13, 2020

Other Discussion

- Paul offered to provide college information so members can give us feedback about our general operations.
- Lane has a Cisco Network Academy providing training for certification and to become a Cisco content instructor. Joseph Colton is the instructor of record at Lane.
- Lane does testing for Cisco, but it is unrelated to the academy.
- Now is a good time to hire interns since we will have a large number of graduates in Programming and Network Operations.
- Members are invited to do a walking tour of our facilities for the next Advisory Meeting on May 7, to see the facilities that will be upgraded if the Bond passes.
