Student Success Model

Core Team

- Institutional Effectiveness Committee (IEC)
  - Gather Input
  - Select Topics

- Task Force
  - Form Task Force
  - Research
  - Report

- Implementation Team
  - Implement & Evaluate
  - Report Out

- Core Team selects topics for Task Force research
- IEC uses evidence from analysis of student data to select from recommended topics
- IEC submits recommendation to Core Team for specific topics to undergo Task Force research

- A Task Force is formed for each research topic
- Call for expert employees & students, including key campus data experts
- Task Force meets and selects chair

- Select and review literature
- Gather and review college and other relevant data

- Task Force drafts report and presents to Core Team
- Evidence from data and scholarly literature
- Core Team selects projects for implementation

- Call for expert employees & students
- Review the study, implement and evaluate outcomes

- Maintain communication with Core Team regarding implementation process
- Present outcome to Core Team and the College Community

Each phase of the task force process may be active during an academic year with progress monitored through the Core Team.
