

# THE ASSESSMENT PROCESS

works with

**FACULTY**

In this process of providing education, artifacts (data) are collected from students. These artifacts include assignments, projects, tests, etc.

**A-TEAM**

This step maps the artifacts and curriculum to the Core Learning Outcomes (CLOs) of the college. Two teams, **APROC** and the **Assessment Team** are available to help guide instructors through this step.

**APROC**

This step involves parsing the assessment data and artifacts and initiates exercises to improve a program. The **Assessment Team** and **APROC** also support this step.

**GOALS**

The **Institutional Effectiveness Committee** vets the results of the program review and are the body that provides additional recommendations to governance.

**SUPPORT**

These groups review the program assessment and make decisions for support and approving changes requested in the program review process.
