TRiO & TRiO STEM	• 1/219	TRiO	Shannon Brumbaugh, brumbaugh@lanecc.edu
	• 1/218	TRiO STEM	Lynn Galle, gallel@lanecc.edu

Live eTutoring: lanecc.edu/tutor online tutoring includes evenings and weekends

To request this information in an alternate format please contact the Center for Accessible Resources at (541) 463-5150 or accessibleresources@lanecc.edu

96% of surveyed students who use tutoring were satisfied or very satisfied with their experience!

What can you expect from a tutor?

FREE tutoring is available to registered LCC students at the FREE drop-in labs listed on the other side. Try all the tutors. Everyone is different.

Online tutoring is also available in many subjects during the evenings and weekends! Check it out! www.lanecc.edu/tutor

What tutors *will* do:

- * Model good study habits and coach students to find the answers for themselves. Ask the student questions like "what did your instructor say? Let's look at your notes. What does the textbook say? Can you find the place in the book where this is discussed?"
- * Be patient. Tutors understand learning new things can be challenging.
- * Help students identify gaps in learning and how to fill them. Sometimes this requires asking the students to back up several steps in the process.
- * Lead the student to self-discovery.
- * Provide a safe environment for the student to practice new skills.
- * Identify strengths in the student's work.
- * Motivate the student to keep trying.
- * Encourage students to visit instructors during office hours.
- * Ask the student to "teach" newly learned information back to the tutor, cementing the learning for the student.

What tutors *won't* do:

- * Provide a quick and simple answer.
- * Complete the student's homework, take-home tests, or papers.
- * Writing tutors won't "edit" a student's paper, but will demonstrate/suggest ways to improve it.
- * Math tutors won't work assigned problems FOR the student but will identify weak links in the process and guide the student to successfully complete the problem.
- * Computer (CIT) tutors won't fill in the blank in a student's code.
- * CS120 tutors won't complete a student's lab assignment.

For general information call Liz at 541-463-5783.
